Project Seek Onassis Kennedy And The Gemstone Thesis:

Project Seek Gerald A. Carroll, 1994 For the first time a serious and definitive inquiry into the Skeleton Key to the Gemstone Files At last the story can be told about the so called Gemstone files which have been circulating the globe since the mid 1970s Who was the mysterious author of these papers And do they hold the answers to the destiny of the United States and the world at large Why was President John F Kennedy and his brother Robert murdered during the bloody 1960s How and why did billionaire defense contractor Howard Hughes meet his fate Was the Watergate Scandal merely an extension of these events What about the impact of early 20th century maritime history What was the role of Aristotle Onassis What about post Watergate conspiracies such as the so called October Surprise and Inslaw Project Seek offers answers to these mysteries *Inside the Gemstone File* Kenn Thomas, David Hatcher Childress, 1999 It s the most notorious rant in the history of conspiracy theories Consists of hundreds of letters hand written in many segments over a number of years by Bruce Roberts the creator of synthetic rubies According to Gemstone Hughes Aircraft stole Roberts rubies in 1960 for use in laser weapons research His subsequent investigation of the theft inspired Roberts to write the Gemstone letters tracking the secret history of the international mob and industrial espionage and their role in political intrigue In 1975 a 24 page chronology known as the Skeleton Key to The Gemstone File began to circulate and has now become a legendary classic of conspiracy literature Mind Control, Oswald & JFK Lincoln Lawrence, Kenn Thomas, 1997 Rev ed of Were we controlled Lincoln Lawrence **AIDS, Opium, Diamonds, and Empire** Nancy Turner Banks, 2010-05 It is a mistake to think that wars only concern armies involved in active engagement Nothing is farther from the truth The real forces of evil wage a financial war The dark princes of debt finance have gained leverage over every important social economic and political institution including the health care delivery system In AIDS Opium Diamonds and Empire author Nancy Turner Banks draws the connections between free market strategies the destruction of national sovereignty by the process of globalization and AIDS as one of the health consequences of a neo Darwinian philosophy Through meticulous research Banks found a medicalpharmaceutical industrial complex that was taken over one hundred years ago by the titans of financial capitalism Their aim was to create profit not to conquer disease This book of social history points to a cauldron of historical events that contributed to the HIV AIDS crisis AIDS Opium Diamonds and Empire tells the dramatic story of a financial ideology that is damaging to everything that it means to be human It is the story of profits over people In the end it is the story of hope and how we can regain our sanity and our health in a world gone mad **The Arch Conspirator** Len Bracken, 1999 Veteran conspiracy author Len Bracken s collection of witty essays and articles takes readers down the dark corridors of conspiracy politics murder and mayhem A fascinating maze of interwoven tales it includes juicy morsels for conspiracy theorists including the Russian conspiracy and an interview with Costa Rican novelist Joaquin Gutierrez A pop conspiracy classic it even includes a psychogeographic map of the third millennium **Kundalini Tales** Richard Sauder, 1998-07 Sauder

continues his studies of underground bases with new information on the occult underpinnings of the US space programme The book also contains a breakthrough section that examines actual US patents for devices that manipulate minds and thoughts from a remote distance Included are chapters on the secret space programme and a 130 page appendix of patents and schematic diagrams of secret technology and mind control devices Lost Continents & the Hollow Earth David Hatcher Childress, Richard S. Shaver, 1999 This book is Childress thorough examination of the early hollow earth stories of Richard Shaver and the fascination that fringe fantasy subjects such as lost continents UFOs and the hollow earth have had on people Shaver s rare 1948 book I Remember Lemuria is reprinted in its entirety and the book is packed with illustrations from Ray Palmer s Amazing Stories issues of the 1940s Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground Eccentric Lives and Peculiar Notions John Michell, 1999-04 Takes us into the bizarre and often humorous lives of such people as Lady Blount who was sure that the earth is flat Cyrus Teed who believed that the earth is a hollow shell with us in the inside Edward Hine who believed that the British are the lost Tribes of Israel and Baron de Guldenstubbe who was sure that statues wrote him letters British writer and housewife Nesta Webster devoted her life to exposing international conspiracies and Father O Callaghan devoted his to opposing interest on loans The extraordinary characters in this book were and in some cases still are wholehearted enthusiasts for the various causes and outrageous notions they adopted and John Michell describes their adventures with spirit and compassion *The Kennedy Family* S. J. Fuller, 2007 America has no official royalty by design Yet there have been the Roosevelts the Adams the Bushes the wanabee Clintons and most intriguing of all the Kennedys The Kennedys have so far only reached the presidency once but the assassination of JFK and his brother Robert and the trials and tribulations of the family members and society in general continue to fascinate the world This new book presents more than 1200 citations of books and related materials arranged by family member The accompanying CD ROM offers ready access and easy searching *Conspiracy Theories* Mark Fenster, 1999 JFK Karl Marx the Pope Aristotle Onassis Queen Elizabeth II Howard Hughes Fox Mulder Bill Clinton all have been linked to vastly complicated global or even galactic intrigues In this enlightening tour of conspiracy theories Mark Fenster guides readers through this shadowy world and analyzes its complex role in American culture and politics Fenster argues that conspiracy theories are a form of popular political interpretation and contends that understanding how they circulate through mass culture helps us better understand our society as a whole To that end he discusses Richard Hofstadter s The Paranoid Style in American Politics the militia movement The X Files popular Christian apocalyptic thought and such artifacts of suspicion as The Turner Diaries the Illuminatus trilogy and the novels of Richard Condon Fenster analyzes the conspiracy community of radio shows magazine and book publishers Internet resources and role playing games that promote these theories In this world the very denial of a conspiracy s existence becomes proof that it exists and the truth is always out there He believes conspiracy theory has become a thrill for a bored subculture one

characterized by its members reinterpretation of accepted history their deep cynicism about contemporary politics and their longing for a utopian future Fenster's progressive critique of conspiracy theories both recognizes the secrecy and inequities of power in contemporary politics and economics and works toward effective political engagement Probing conspiracy theory's tendencies toward scapegoating racism and fascism as well as Hofstadter's centrist acceptance of a postwar American consensus he advocates what conspiracy theory wants but cannot articulate a more inclusive engaging political culture
