Painters As Envoys Korean Inspiration In Eighteenth Century Japanese Nanga:

Painters as Envoys Burglind Jungmann, 2004 It is well known that Japanese literati painting of the eighteenth century was inspired by Chinese styles that found their way to Japan through trade relations However because Japanese and American art historians have focused on Japanese Chinese ties the fact that Japan also maintained important diplomatic and aesthetic relations with Korea during the same period has long been neglected This illustrated cogently argued book examines the role of Korean embassies in shaping the new Japanese literati style known as Nanga in Japan Publisher's description *The Journal of Korean Studies, Volume 12, Number 1 (Fall 2007)* John Duncan, Gi-Wook Shin, Stanford University, 2007-12-07 The University of Washington Korea Studies Program in collaboration with Rowman Littlefield Publishers is proud to publish the Journal of Korean Studies *A Companion to Korean Art* J. the story of the formation of Korea's contemporary cultural scene and the role artists have played in it. This richly illustrated history tackles these issues exploring Korean art from the late nineteenth century to the present day, a period that has seen enormous political, social, and economic change. Charlotte Horlyck covers the critical and revolutionary period that stretches from Korean artists' first encounters with oil paintings in the late nineteenth century to the varied and vibrant creative outputs of the twenty-first. She explores artists' interpretations of new and traditional art forms ranging from oil and ink paintings to video art, multi-media installations, ready-mades, and performance art, showing how artists at every turn have questioned the role of art and artists within society. Opening up this fascinating world to general audiences, this book will appeal to anyone wanting to explore this rich and fascinating era in Korea's cultural history.

A History of Korea Kyung Moon Hwang, 2021-11-30. Dynamic and meticulously researched, *A History of Korea* continues to be one of the leading introductory textbooks on Korean history. Assuming no prior knowledge, Hwang guides readers from early state formation and the dynastic eras to the modern experience in both North and South Korea. Structured around episodic accounts, each chapter begins by discussing a defining moment in Korean history in context, with an extensive examination of how the events and themes under consideration have been viewed up to the present day. By engaging with recurring themes such as collective identity, external influence, social hierarchy, family, and gender, the author introduces the major historical events, patterns, and debates that have shaped both North and South Korea over the past 1500 years. This textbook is essential reading for undergraduate and postgraduate students of Korean or Asian history. The first half of the book covers pre-20th century history, and the second half the modern era, making it ideal for survey courses.

Epistolary Korea JaHyun Kim Haboush, 2009-04-14. By expanding the definition of epistle to include any writing that addresses the intended receiver directly, JaHyun Kim Haboush introduces readers to the rich epistolary practice of Chosŏn Korea. The Chosŏn dynasty (1392-1910) produced an abundance of epistles, writings that mirror the genres of neighboring countries, especially China, while retaining their own specific historical trajectory. Written in both literary Chinese and vernacular Korean, the writings collected here range from royal public edicts to private letters, a fascinating array that blurs the line between classical and everyday language and the divisions between men and women. Haboush's selections also recast the relationship between epistolography and the concept of public and private space. Haboush groups her epistles according to where they were written and read: public letters, letters to colleagues and friends, social letters, and family letters. Then she arranges them according to occasion: letters on leaving home, deathbed letters, letters of fiction, and letters to the dead. She examines the mechanics of epistles, their communicative space, and their cultural and political meaning. With its wholly unique collection of materials, *Epistolary Korea* produces more than a vivid chronicle of pre- and early modern Korean life. It breaks new ground in establishing the terms of a distinct non-European form of epistolography.
