Diversity Anna Elisabetta Galeotti,Enrico Biale,Federica Liveriero,2018-12-07 The chapters in this book deal with different though related topics concerning the tense relationship between democracy and diversity On the one hand social diversity represents an opportunity widening the horizon of social options and perspectives of innovation but on the other hand it creates problems for the social cohesion and peaceful coexistence of many groups be they majority or minority The chapters depart from the intrinsic connection between democracy and diversity and the unavoidable challenges that pluralism poses to decision making procedures investigating from different perspectives how the normative requirement of fully respecting agents reflexive agency impacts the revision of democratic decision making procedures and the way in which institutions react to citizens justice based claims All the contributions share the theoretical insight that diversity is one of the raisons d'être of democracy and still all acknowledge that the fact of pluralism poses challenges to the legitimacy of democratic procedures of decision making Indeed if citizens had the same values and preferences collective decisions would be easily achieved and the institution of democratic procedures would be redundant Yet the wide pluralism of doctrines habits social standards and conceptions of the goods typical of contemporary societies has often led citizens to challenge the legitimacy of democratic decisions because these choices do not fit their preferences or values To address these challenges following recent accounts of democratic decision making in this volume different strategies are introduced defended and criticized in

order to outline a perspective that is able to guide actual decision making processes guidance define standards that everyone has equal opportunity to fulfil inclusion and grant that citizens exercise their reflexive control on the whole democratic system reflexivity The chapters in this book were originally published as a special issue of the Critical Review of International Social and Political Philosophy **Federal Register** ,1993-05-03 *Defining Construction: Insights into the Emergence*
