Fuel System

The Deutz SP110 fuel injection pump is installed on the 1104D engine.

Notes:

The fuel transfer pump draws fuel from the fuel tank and through the water separator. When the fuel goes through the water separator, any water in the fuel will go to the bottom of the tank. The fuel transfer pump sends the fuel at a low pressure to the fuel filter. From the fuel filter, the fuel goes through the supply line to the fuel injection pump.

Goklany, 1999 America s air quality is better today than ever before in modern history and continues to steadily improve How did this remarkable turnaround come about Basing his conclusions on a painstaking compilation of long term empirical data on air quality and emissions data extending from the pre federalization era to the present some dating back a century Goklany challenges the orthodoxy that credits federal regulation for improving air quality He shows that the air had been getting cleaner prior to and probably would have continued to improve regardless of federalization States and localities after all have always been engaged in a race to improve the quality of life which means different things at different stages of economic development Goklany s empirical data refute once and for all the race to the bottom rationale for centralized federal regulation Moreover technological advances and consumer preferences continue to play important roles in improving air quality Goklany accordingly offers a regulatory reform agenda that would improve upon the economic efficiency and environmental sensitivity of air quality regulation *Special Handbook for Assessors* George Crane Morehouse, 1898
