learning artefact for SAP S 4 Hana training purposes Based on Design Science Research a new prototype of an e learning artefact has been developed The prototype is grounded on didactic and information systems theories as well as models The aim of this new prototype is to transfer knowledge of business processes with the new Enterprise Resource Planning ERP SAP S 4 HANA in an effective and efficient way The study is validated through an experiment with a treatment and a control group While the treatment group learns with the new e learning artefact the control group keeps with the existing conventional training Results show that the treatment group have significantly less dropouts than the control group and that the treatment group could also finalize the SAP S 4 Hana exercises in less time This study shows also how companies can benefit significantly using the same approach through a set of guidelines SAP HR TIME MANAGEMENT P. done and how it is to be done This is particularly important for less experienced users and consultants Indicating chapter numbers against each menu and configuration item is a very useful innovation as it establishes direct link between the SAP system and the book Another useful feature is that these books can be read not only by consultants but also by users business process owners and even by senior managers The importance of each topic for each category of users is specified Mr Agrawal has taken considerable pain in writing these books and I congratulate Mr Agrawal on his achievement and thank him for his contribution to the SAP community K Sanjai Regional Head Asia Pacific Japan SAP Global Delivery
