1.8 Assign standard purchasing organization to plant

Menu path	Implementation Guide for R/3 Customizing (IMG) → Enterprise Structure → Assignment → Logistics General → Assign standard purchasing organization to plant
Transaction Code	SPRO
Configuration Description	If several purchasing organisations procure for a certain plant, we can define one of them as the standard purchasing organization for the transactions "pipeline procurement", "consignment" and "stock transfers". In source determination for stock transfers and consignment, the system automatically utilizes this standard purchasing organization. In the case of goods issues of pipeline materials, the purchasing info records of the standard purchasing organization are read. In ITZ, we have not defined this Setting as we are using single Purchasing Organisation.
