SAP S/4HANA Commercial Project Management: A Complete Guide to Configuration and Implementation PAVAN KANCHI, DR BRAJESH KUMAR

UMRAO, PREFACE The landscape of project management within the enterprise has evolved dramatically in recent years driven by increasing demands for agility transparency and real time decision making SAP S 4HANA Commercial Project Management responds to these challenges by providing a unified cloud ready solution designed specifically for the unique needs of commercial project driven businesses Whether you oversee capital intensive construction initiatives professional services engagements or complex manufacturing roll outs this book will guide you through every step of configuring and

implementing SAP S/4HANA Commercial Project Management to deliver projects on time on budget and in full compliance with corporate standards. This guide is the culmination of years of hands-on experience gained from consulting engagements, client workshops, and internal SAP development cycles. It distills best practices, proven processes, and common pitfalls into a coherent framework that both new adopters and seasoned SAP professionals can apply immediately. You will find clear explanations of key concepts such as project definitions, work breakdown structures, billing milestones, and revenue recognition rules, and learn how they map to SAP S/4HANA's data model and user interfaces. Each chapter balances theoretical underpinnings with practical configuration exercises so you can not only understand what needs to be done but also how to do it. Throughout this book, you will learn to establish the foundational master data, projects, WBS elements, networks, and activities, and integrate them seamlessly with finance, procurement, and human resources. Design and implement billing structures that reflect commercial contracts, performance obligations, and milestone plans, ensuring accurate invoice and timely revenue recognition. Configure time and expense management to capture actuals, compare planned versus actual performance, and drive proactive project control. Leverage embedded analytics and reporting tools to gain real-time visibility into project health, profitability, and resource utilization. Illustrative case studies demonstrate how organizations across industries have transformed their project management practices, achieving faster close cycles, improved cash flow, and tighter governance. Detailed configuration screenshots, decision trees, and validation checks guide you through system setup, while troubleshooting tips help you navigate common challenges during implementation. Whether you are an implementation consultant, IT architect, project controller, or business stakeholder, this book equips you with the knowledge and tools to unlock the full potential of SAP S/4HANA Commercial Project Management. By following the end-to-end implementation roadmap laid out here, you will build a scalable and flexible foundation for managing complex revenue-generating projects in the digital era. We invite you to embark on this journey and discover how SAP S/4HANA Commercial Project Management can elevate your organization's project delivery to new heights. Let us begin.

Authors: Transportation Management with SAP TM 9
Jayant Daithankar, Tejkumar Pandit, 2014-08-07

The implementation of a TMS solution is a highly complex and mission-critical project. If executed correctly, a good TMS can deliver a number of benefits to the organization in terms of optimization, greater efficiency, reduced errors, and improved revenue through accurate invoicing. However, a number of projects fail to realize these benefits for a host of reasons, such as an incorrect product selection, over customization of the system, and lack of detailed processes. The evaluation and selection of the right transportation management system is a very critical step in the successful implementation of a TMS product, as well as ensuring that the organization is able to realize the benefits expected from the system. Transportation Management with SAP TM 9 is a guide for CIOs/CXOs evaluating options for various transportation management solutions available in the market and helps in appropriate decision making before committing investment. A proven evaluation framework and guidance provided in the book can help decision makers with product

selection and help to create a business case for management approval and design a future roadmap for the organization The book provides a comprehensive understanding of what SAP transportation management is and is useful for teams involved in TM Implementation and roll outs to ensure preparedness The book explains end to end freight life cycle processes functional system landscape implementation challenges and post go live precautions required to optimize investments in SAP TM Transportation Management with SAP TM 9 also acts as a step by step implementation guide with details of configuration required to set up a TM9 system This book also covers the upgrade of SAP TM8 to SAP TM9 which will be useful for existing clients who are on TM 8 Nonavailability of SAP TM skilled resources is a major challenge faced by organizations and the book provides a detailed competency building plan along with skill set requirements to create a competent and trained workforce to manage transformation The current book available in the market on SAP TM is based on Version 6 release which does not cover air freight processes Our book covers end to end air freight configuration scenarios for logistic companies
