Authors: Transportation Management with SAP TM 9 Jayant Daithankar, Tejkumar Pandit, 2014-08-07

The implementation of a TMS solution is a highly complex and mission-critical project. If executed correctly, a good TMS can deliver a number of benefits to the organization in terms of optimization, greater efficiency, reduced errors and improved revenue through accurate invoicing. However, a number of projects fail to realize these benefits for a host of reasons such as an incorrect product selection, over customization of the system and lack of detailed processes. The evaluation and selection of the right transportation management system is a very critical step in the successful implementation of a TMS product as well as ensuring that the organization is able to realize the benefits expected from the system. Transportation Management with SAP TM 9 is a guide for CIO/CXOs evaluating options for various transportation management solutions available in the market and helps in appropriate decision making before committing investment. A proven evaluation framework and guidance provided in the book can help decision makers with product selection and help to create a business case for management approval and design a future roadmap for the organization. The book provides a comprehensive understanding of what SAP transportation management is and is useful for teams involved in TM implementation and roll-outs to ensure preparedness. The book explains end-to-end freight life cycle processes, functional system landscape, implementation challenges and post-go-live precautions required to optimize investments in SAP TM. Transportation Management with SAP TM 9 also acts as a step-by-step implementation guide with details of configuration.

required to set up a TM9 system This book also covers the upgrade of SAP TM8 to SAP TM9 which will be useful for existing clients who are on TM 8 Nonavailability of SAP TM skilled resources is a major challenge faced by organizations and the book provides a detailed competency building plan along with skill set requirements to create a competent and trained workforce to manage transformation The current book available in the market on SAP TM is based on Version 6 release which does not cover air freight processes Our book covers end to end air freight configuration scenarios for logistic companies
