Pursued The Emir Of Al Shabaab:

From Al-Shabaab to Al-Nusra United States. Congress. House. Committee on Homeland Security, 2014 *More Stories from Langley* Edward F. Mickolus, 2020-09 A collection of personal essays detailing the adventures advice and experience of generations of CIA analytic operational support and technical officers and managers **Jihadi Politics** Tore

Hamming, 2022-11-01 In February 2014 al Qaida issued a statement that shocked the entire Jihadi movement For the first time in its history the group declared that a local affiliate the Islamic State in Iraq was no longer part of al Qaida The renegade Iraqi group led by Abu Bakr al Baghdadi had expanded its operations to Syria taking over the regional branch Jabhat al Nusra but in the process the group had defied orders from al Qaida s amir Ayman al Zawahiri Islamic State s actions and increasingly aggressive posture towards fellow Jihadis eventually ignited a Jihadi civil war a period defined by internal tensions that ultimately turned global With devastating impact this fitna left the Jihadi movement more polarized and fragmented than ever seriously threatening its internal cohesion Jihadi Politics presents the first exhaustive account of infighting within the global Jihadi movement Based on years of digital anthropology hundreds of primary documents and interviews with Jihadis it offers an unprecedented glimpse into historic and current conflicts between and within Jihadi groups This thorough examination of the years 2014 2019 offers a more nuanced understanding of the current state of Jihadism with important insights into its future evolution including Islamic State s role in Afghanistan [Africa Yearbook](#)

[Volume 7](#) Andreas Mehler, Henning Melber, Klaas van Walraven, 2011-10-21 The Africa Yearbook covers major domestic political developments the foreign policy and socio economic trends in sub Sahara Africa all related to developments in one calendar year The Yearbook contains articles on all sub Saharan states each of the four sub regions West Central Eastern Southern Africa focusing on major cross border developments and sub regional organizations as well as one article on continental developments and one on African European relations While the articles have thorough academic quality the Yearbook is mainly oriented to the requirements of a large range of target groups students politicians diplomats administrators journalists teachers practitioners in the field of development aid as well as business people **Exporting**

Global Jihad Tom Smith, Hussein Solomon, 2020-06-11 This timely 2 volume edited collection looks at the extent and nature of global jihad focusing on the often exoticised hinterlands of jihad beyond the traditionally viewed Middle Eastern centre As ISIS loses its footing in Syria and Iraq and al Qaeda regroup this comprehensive account will be a key work in the on going battle to better understand the dynamics of the jihads global reality Critically examining the global reach of the jihad in these peripheries has the potential to tell us much about patterns of both local mobilisation and local rejection of a grander centrally themed and administered jihad Has the periphery been receptive to an exported jihad from the centre or does the local rooted cosmopolitanism of the jihad in the periphery suggest a more complex glocal relationship These questions and challenges are more pertinent than ever as the likes of ISIS and many commentators attempt to globally rebrand the jihad

and as the centre reasserts its claims to the exotic periphery Edited by Tom Smith Portsmouth Kirsten E Schulze LSE and Hussein Solomon UFS the two volumes critically examine the various claims of connections between jihadist terrorism in the periphery remote Islamist insurgencies of the periphery and the global jihad Each volume draws on experts in each of the geographies in question The global nature of the jihad is too often taken for granted yet the extent of the global connections deserve focused investigation Without such inquiry we risk a reductive understanding of the global jihad further fostering Orientalist and Eurocentric attitudes towards local conflicts and remote violence in the periphery This book will therefore draw attention to those who overlook and undermine the distinct and rich particularities of the often contradictory and cosmopolitan global jihad In many of the peripheries particularly those with intensive large scale insurgencies there is extensive international military alliance The Bush doctrine to fight them over there so we don't have to fight them over here certainly looks to be alive and well in places like Somalia the Philippines and Niger amongst many others Crucially we must ask is such reasoning sound is the threat global and if so in what way Furthermore is action in the peripheries under the guise of combating the global jihad overlooking the local issues and threatening to make a wider threat where it was otherwise contained Diagnosing nations or regions as breeding grounds or sanctuaries of global jihad carries the spectre of having to choose sides in a battle of civilisations which looms over a number of developing nations reliant on good western relations

Imposing Sanctions on Violent Non-State Actors to Restore International Peace and Security

Christopher Huber, 2022-06-06 In the last decades violent non state actors VNSAs such as rebel and terrorist organizations have proved their capacity to break international law The international community particularly the United Nations UN has reacted to this development by redirecting its conflict resolution efforts to these non state entities This has turned targeted sanctions into one of the most vital and indispensable foreign policy tools available to the UN Security Council in combating terrorism and contributing to the peaceful resolution of intra state conflicts Despite the UN Security Council's growing tendency to sanction VNSAs there has been little research analyzing the effects of UN targeted sanctions on these non government actors This book seeks to fill this gap and shifts the focus on non state actors by ascertaining the general mechanisms through and conditions under which UN targeted sanctions imposed on VNSAs tend to be effective The tripartite empirical analysis combining quantitative and qualitative research methods demonstrates that the state centric understanding of how sanctions work is not simply applicable to the effective sanctioning of violent non state actors such as rebel and terrorist movements
