Folk Art and Aging Jon Kay,2016-08-08 Growing old doesn't have to be seen as an eventual failure but rather as an important developmental stage of creativity Offering an absorbing and fresh perspective on aging and crafts Jon Kay explores how elders choose to tap into their creative and personal potential through making life story objects Carving painting and rug hooking not only help seniors to cope with the ailments of aging and loneliness but also to achieve greater satisfaction with their lives Whether revived from childhood memories or inspired by their capacity to connect to others meaningful memory projects serve as a lens for focusing on remaking and sharing the long ago These activities often help elders productively fill the hours after they have raised their children retired from their jobs and or lost a loved one These individuals forge new identities for themselves that do not erase their earlier lives but build on them and new lives that include sharing scenes and stories from their memories

Celtic Folklore. Book I John Rhys,2019-06-26 Towards the close of the seventies I began to collect Welsh folklore I did so partly because others had set the example elsewhere and partly in order to see whether Wales could boast of any story tellers of the kind that delight the readers of Campbell's Popular Tales of the West Highlands I soon found what I was not wholly unprepared for that as a rule I could not get a single story of any length from the mouths of any of my fellow countrymen but a considerable number of bits of stories In some instances these were so scrappy that it took me years to discover how to fit them into their proper context but speaking generally I may say that as the materials such as they were accumulated my initial difficulties disappeared I was however always a little afraid of refreshing my memory with the legends of other lands lest I should read into those of my own ideas possibly foreign to them While one is busy collecting it is safest probably not to be too much engaged in comparison when the work of collecting is done that of comparing may begin But after all I have not attempted to proceed very far in that direction only just far enough to find elucidation here and there for the meaning of items of folklore brought under my notice To have gone further would have involved me in excursions hopelessly beyond the limits of my undertaking for comparative folklore has lately assumed such dimensions that it seems best to leave it to those who make it their special study
