Qiaoxiang Ties Studies From The International Institutes:

Rethinking Chinese Transnational Enterprises Leo Douw, Cen Huang, David Ip, 2013-10-11 Affinity to the Chinese culture personalized social networks and a firm control of ownership and management have often been considered the key ingredients for the success of many diaspora Chinese transnational enterprises in South China and Southeast Asia In view of the recent Asian crisis and the rapid changes imposed by globalization scholars are increasingly concerned whether these family owned Chinese transnational enterprises would survive the challenges in the new millennium **Diasporas and Transnational Entrepreneurship in Global Contexts** Ojo, Sanya, 2016-12-28 The advancement and progression of migrant businesses has increased significantly in the globalized modern society As such current research has emerged regarding the characteristics of transnational economic activities **Diasporas and Transnational Entrepreneurship in Global Contexts** is an essential reference publication for the latest material on the nature process and outcome of migrant entrepreneurs economic activities expanding from their countries of origin to their countries of residence Featuring coverage on a broad range of topics such as regional growth industrial development and employment generation this book is ideally designed for researchers advanced level students practitioners managers and policy makers seeking current research on how economic development can be encouraged and nurtured among ethnic entrepreneurs and businesses Chinese Transnational Networks Chee-Beng Tan, 2006-10-19 The Chinese overseas have long been relevant to China especially to qiaoxiang and vice versa Qiaoxiang refers to regions from where emigrants migrated overseas where there are therefore ties with Chinese communities overseas Unlike most other works which cover either China or the Chinese overseas this book examines both China and the Chinese overseas in relation to qiaoxiang With clearly presented chapters that examine the ancestral homeland Chinese overseas China and transnational networks and the diversity of settlements and homelands the expert team of international contributors of Chinese Transnational Networks have created a volume which will be essential reading for students and scholars of migrations studies Chinese diaspora and Chinese culture and society Pacific Crossing Elizabeth Sinn, 2012-12-01 During the nineteenth century tens of thousands of Chinese men and women crossed the Pacific to work trade and settle in California Drawn initially by the gold rush they took with them skills and goods and a view of the world which though still Chinese was transformed by their long journeys back and forth They in turn transformed Hong Kong their main point of embarkation from a struggling infant colony into a prosperous international port and the cultural center of a far ranging Chinese diaspora Making use of extensive research in archives around the world Pacific Crossing charts the rise of Chinese Gold Mountain firms engaged in all kinds of transpacific trade especially the lucrative export of prepared opium and other luxury goods Challenging the traditional view that the migration was primarily a coolie trade Elizabeth Sinn uncovers leadership and agency among the many Chinese who made the crossing In presenting Hong Kong as an in between place of repeated journeys and continuous movement Sinn also offers a fresh view of the British

colony and a new paradigm for migration studies In the Face of Diversity Nathan D. Gardner Molina, 2025-05-01 The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from across the country over five decades that draws on the English and Chinese language materials these organisations have produced over the years as well as interviews with ten past and present leaders Instead of a single community the evidence demonstrates the existence of many diverse Chinese Australian communities Consequently the book advances two ideas Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations Imagining the Chinese Australian community has nonetheless produced real world outcomes the most prominent being a highly participatory style of Australian multiculturalism These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities I Am You Are We Are conveys Chinese Australian history in clear and evocative prose while remaining academically authoritative and socially conscious The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions made by Chinese Australian communities *The Politics of the Periphery in Indonesia* John H. Walker, Glenn Banks, Minako Sakai, 2009-01-01 The Politics of the Periphery in Indonesia is a thought provoking examination of local politics and the dynamics of power at Indonesia's geographic and social margins After the fall of Suharto in 1998 and the introduction of a policy of decentralization in 2001 local stakeholders secured and consolidated decision making power and set about negotiating new relations with Jakarta The volume deals with power struggles and local national tensions looking among other things at resource control the historical roots of regional identity politics and issues relating to Chinese Indonesians The authors develop information in ways that transcend the post colonial territorial boundaries of Indonesia in the Malay Indonesian archipelago and use case studies to show how the changes described have galvanized Indonesian politics at the cultural and geographical peripheries The Price and Promise of Specialness Jin Li Lim, 2019-06-04 In The Price and Promise of Specialness Jin Li Lim revises narratives on the overseas Chinese and the People's Republic of China by analysing the Communist approach to overseas Chinese affairs in New China's first decade as a function of a larger political economy Jin Li Lim shows how the party state centred its approach towards the overseas Chinese on a perception of their financial utility and thus sought to offer them a special identity and place in New

China so as to unlock their riches Yet this contradicted the quest for socialist transformation and as its early pragmatism fell away the radicalising party state abandoned its promises to the overseas Chinese who were left to pay the price for their difference

Southeast Asian Studies in China Saw Swee-Hock, John Wong, 2007 Traces the development of Southeast Asian Studies in China discusses the current status of these studies examines the problems encountered in the pursuit of these studies and attempts to evaluate their prospects in the years ahead

Chinese Among Others Philip A. Kuhn, 2008-03-27 In this book distinguished historian Philip A Kuhn tells the remarkable five century story of Chinese emigration as an integral part of China's modern history Although emigration has a much longer past its modern phase dates from the sixteenth century when European colonialists began to collaborate with Chinese emigrants to develop a worldwide trading system The author explores both internal and external migration complementary parts of a far reaching process of adaptation that enabled Chinese families to deal with their changing social environments Skills and institutions developed in the course of internal migration were creatively modified to serve the needs of emigrants in foreign lands As emigrants Chinese inevitably found themselves among others The various human ecologies in which they lived have faced Chinese settlers with a diversity of challenges and opportunities in the colonial and postcolonial states of Southeast Asia in the settler societies of the Americas and Australasia and in Europe Kuhn traces their experiences worldwide alongside those of the others among whom they settled the colonial elites indigenous peoples and rival immigrant groups that have profited from their Chinese minorities but also have envied feared and sometimes persecuted them A rich selection of primary sources allows these protagonists a personal voice to express their hopes sorrows and worldviews The post Mao era offers emigrants new opportunities to leverage their expatriate status to do business with a Chinese nation eager for their investments donations and technologies The resulting new migration the author argues is but the latest phase of a centuries old process by which Chinese have sought livelihoods away from home
