Armed Conflict and Forcible Displacement Elena Katselli Proukaki, 2018-03-05 This book addresses the involuntary and arbitrary displacement of individuals resulting from armed conflict and gross human rights violations It shows that forcible displacement constitutes a serious violation of international law and of fundamental community interests Armed Conflict and Forcible Displacement provides a critical legal analysis of the contemporary international framework permeating forcible displacement in these circumstances and explores the rights that individuals possess with specific focus on the right not to be displaced and where this fails the right to return home and to receive property restitution In doing so this volume marries together different fields of international law and builds on the case studies of Cyprus Colombia Cambodia and Syria While the case studies considered here are far from exhaustive they are either little explored or present significant challenges due to the magnitude of displacement or contested international jurisprudence Through this analysis the volume exposes some of the legal challenges that individuals encounter in being protected from forcible displacement as well as the legal obstacles
