Revolution Francaise Histoire 1830 1840 Classic:

Press, Revolution, and Social Identities in France, 1830-1835 Jeremy D. Popkin, 2010-11-01 In this innovative study of the press during the French Revolutionary crisis of the early 1830s Jeremy Popkin shows that newspapers played a crucial role in defining a new repertoire of identities for workers women and members of the middle classes that redefined Europe's public sphere Nowhere was this process more visible than in Lyon the great manufacturing center where the aftershocks of the July Revolution of 1830 were strongest In July 1830 Lyon's population had rallied around its liberal newspaper and opposed the conservative Restoration government In less than two years however Lyon's press and its public opinion like those of the country as a whole had become irrevocably fragmented Popkin shows how the structure of the journalistic field in liberal society multiplied political conflicts and produced new tensions between the domains of politics and culture New periodicals appeared claiming to speak for workers for women and for the local interests of Lyon The public was becoming inherently plural with the emergence of new imagined communities that would dominate French public life well into the twentieth century Jeremy Popkin is well known for his earlier studies of journalism during the eighteenth century and the French Revolution In *Press Revolution and Social Identities in France* he not only moves forward in time but also offers a new model for a cultural history of journalism and its relationship to literature

French Literature Tim Farrant, 2013-11-20 Everyone knows something of nineteenth century France or do they *Les Miserables* *The Lady of the Camellias* and *The Three Musketeers* Balzac and Jules Verne live in the popular consciousness as enduring human documents and cultural icons Yet the French nineteenth century was even more dynamic than the stereotype suggests This exciting new introduction takes the literature of the period both as a window on past and present mindsets and as an object of fascination in its own right Beginning with history the century's biggest problem and potential it looks at narrative responses to historical political and social experience before devoting central chapters to poetry drama and novels all genres the century radically reinvented It then explores numerous modernities ways nineteenth century writing and mentalities look forward to our own before turning to marginalities subjects and voices the canon traditionally forgot No genre was left unchanged by the nineteenth century This book will help to discover them anew **Revolution Francaise**
