California company gave one of its earliest 12 strings to George Harrison of the Beatles on the group's first tour of the United States in 1964. He immediately used it live and in the studio and showed off the sound of electric jangle to the rest of the world. This book tells the story of those heady days in the 60s of the competitors who tried and failed to match the sound and of the instrument's continuing production by Rickenbacker and use by many modern guitarists. Complete with high quality photos and exclusive interviews with many of the 12 string's leading players, this is the best guide yet to the history of the sound of jingle jangle.

Though teams have improved in recent years at turning top picks into major leaguers, the baseball draft is still centered on educated guesswork. This book explains why.
