Rethinking The Fur Trade Cultures Of Exchange In An Atlantic World:

Rethinking the Fur Trade Susan Sleeper-Smith, 2009-12-01 Lucrative far reaching and complex the fur trade bound together Europeans and Native peoples of North America in the seventeenth and eighteenth centuries Rethinking the Fur Trade offers a nuanced look at the broad range of contracts that characterized the fur trade a phenomenon that has often been oversimplified and misrepresented These essays show how the role of Native Americans was far more instrumental in the conduct and outcome of the fur trade than previously suggested Rethinking the Fur Trade exposes what has been called the invisible hand of indigenous commerce revealing how it changed European interaction with Indians influenced what was produced to serve the interests of Indian customers and led to important cultural innovations The initial essays explain the working mechanisms of the fur trade and explore how and why it evolved in a North Atlantic context The second section examines indigenous perspectives through primary source writings from the period and considers newly evolving indigenous perspectives about the fur trade The final sections analyze the social history of the fur trade the profound effect of the cloth trade on Indian dress and culture and the significance of gender kinship and community in the workings of economic exchange *Global Trade and the Transformation of Consumer Cultures* Beverly Lemire, 2018-01-11 Charts the rise of

consumerism and the new cosmopolitan material cultures that took shape across the globe from 1500 to 1820 **The Indianization of Lewis and Clark** William R. Swagerty, 2012-10-29 Although some have attributed the success of the Lewis and Clark expedition primarily to gunpowder and gumption historian William R Swagerty demonstrates in this two volume set that adopting Indian ways of procuring processing and transporting food and gear was crucial to the survival of the Corps of Discovery The Indianization of Lewis and Clark retraces the well known trail of America s most famous explorers as a journey into the heart of Native America a case study of successful material adaptation and cultural borrowing Beginning with a broad examination of regional demographics and folkways Swagerty describes the cultural baggage and material preferences the expedition carried west in 1804 Detailing this baseline reveals which Indian influences were already part of Jeffersonian American culture and which were progressive adaptations the Corpsmen made of Indian ways in the course of their journey Swagerty s exhaustive research offers detailed information on both Indian and Euro American science medicine cartography and cuisine and on a wide range of technologies and material culture Readers learn what the Corpsmen wore what they ate how they traveled and where they slept and with whom before during and after the return Indianization is as old as contact experiences between Native Americans and Europeans Lewis and Clark took the process to a new level accepting the hospitality of dozens of Native groups as they sought a navigable water route to the Pacific This richly illustrated interdisciplinary study provides a unique and complex portrait of the material and cultural legacy of Indian America offering readers perspective on lessons learned but largely forgotten in the aftermath of the epic journey

Disappointment River Brian Castner, 2018-03-13 In 1789 Alexander Mackenzie traveled 1200 miles on the immense

river in Canada that now bears his name in search of the fabled Northwest Passage that had eluded mariners for hundreds of years In 2016 the acclaimed memoirist Brian Castner retraced Mackenzie's route by canoe in a grueling journey and discovered the Passage he could not find Disappointment River is a dual historical narrative and travel memoir that at once transports readers back to the heroic age of North American exploration and places them in a still rugged but increasingly fragile Arctic wilderness in the process of profound alteration by the dual forces of globalization and climate change Fourteen years before Lewis and Clark Mackenzie set off to cross the continent of North America with a team of voyageurs and Chipewyan guides to find a trade route to the riches of the East What he found was a river that he named Disappointment Mackenzie died thinking he had failed He was wrong In this book Brian Castner not only retells the story of Mackenzie's epic voyages in vivid prose he personally retraces his travels battling exhaustion exposure mosquitoes white water rapids and the threat of bears He transports readers to a world rarely glimpsed in the media of tar sands thawing permafrost remote indigenous villages and at the end a wide open Arctic Ocean that could become a far northern Mississippi of barges and pipelines and oil money

Rainy Lake House Theodore Catton, 2017-09-21 Focuses on three men from vastly different backgrounds and serves as a vehicle for exploring the rigors of the fur trade lyrical and transcendent American Historical Review In September 1823 three men met at Rainy Lake House a Hudson's Bay Company trading post near the Boundary Waters Dr John McLoughlin the proprietor of Rainy Lake House was in charge of the borderlands west of Lake Superior where he was tasked with opposing the petty traders who operated out of US territory Major Stephen H Long an officer in the US Army Topographical Engineers was on an expedition to explore the wooded borderlands west of Lake Superior and the northern prairies from the upper Mississippi to the forty ninth parallel John Tanner a white man living among the Ojibwa nation arrived in search of his missing daughters who Tanner believed were at risk of being raped by the white traders holding them captive at a nearby fort Drawing on their combined experiences Theodore Catton creates a vivid depiction of the beautiful and dangerous northern frontier from a collision of vantage points American British and Indigenous imperial capital and labor explorer trader and hunter At the center of this history is the deeply personal story of John Tanner's search for kinship first among his adopted Ojibwa nation then in the search for his white family of origin and finally in his quest for custody of his multiracial children Written with clarity and energy this book tells its story through the remarkable device of a triple biography Gregory Evans Dowd author of *Groundless*

What is Early Modern History? Merry E. Wiesner-Hanks, 2021-01-20 What is Early Modern History offers a concise guide to investigations of the era from the fifteenth to eighteenth centuries and an entry point to larger questions about how we divide and organize the past and how the discipline of history has evolved Merry Wiesner Hanks showcases the new research and innovative methods that have altered our understanding of this fascinating period She examines various subfields and approaches in early modern history and the marks of modernity that scholars have highlighted in these from individualism to the Little Ice Age Moving beyond Europe

she surveys the growth of the Atlantic World and global history exploring key topics such as the Columbian Exchange the slave trade cultural interactions and blending and the environment She also considers popular and public representations of the early modern period which are often how students and others first become curious Elegantly written and passionately argued What is Early Modern History provides an essential invitation to the field for both students and scholars

"Our Relations...the Mixed Bloods" Larry Nesper, 2021-04-01 In the Great Lakes region of the nineteenth century mixed bloods were a class of people living within changing indigenous communities As such they were considered in treaties signed between the tribal nations and the federal government Larry Nesper focuses on the implementation and long term effects of the mixed blood provision of the 1854 treaty with the Chippewa of Wisconsin That treaty not only ceded lands and created the Ojibwe Indian reservations in the region it also entitled hundreds of mixed bloods belonging to the Chippewas of Lake Superior as they appear in this treaty to locate parcels of land in the ceded territories However quickly dispossessed of their entitlement the treaty provision effectively capitalized the first mining companies in Wisconsin initiating the period of non renewable resource extraction that changed the demography ecology and potential future for the region for both natives and non natives With the influx of Euro Americans onto these lands conflicts over belonging and difference as well as community leadership proliferated on these new reservations well into the twentieth century This book reveals the tensions between emergent racial ideology and the resilience of kinship that shaped the historical trajectory of regional tribal society to the present

Arctic Circles and Imperial Knowledge Annaliese Jacobs Claydon, 2023-12-28 In 1845 an expedition led by Sir John Franklin vanished in the Canadian Arctic The enduring obsession with the Franklin mystery and in particular Inuit information about its fate is partly due to the ways in which information was circulated in these imperial spaces This book examines how the Franklins and other explorer families engaged in science exploration and the exchange of information in the early to mid 19th century It follows the Franklins from the Arctic to Van Diemen s Land charting how they worked with intermediaries imperial humanitarians and scientists and shows how they used these experiences to claim a moral right to information Arctic Circles and Imperial Knowledge shows how the indigenous peoples translators fur traders whalers convicts and sailors who explorer families relied upon for information were both indispensable and inconvenient to the Franklins It reveals a deep entanglement of polar expedition with British imperialism and shows how geographical knowledge intertwined with convict policy humanitarianism genocide and authority In these imperial spaces families such as the Franklins negotiated their tenuous authority over knowledge to engage with the politics of truth and question the credibility and trustworthiness of those they sought to silence

The Ethics of Fur Andrew Linzey, Clair Linzey, 2023-07-24 This is the first multidisciplinary book that addresses the ethics of fur Whatever might have been true of the past the production of fur is now morally problematic in terms of both necessity and suffering There is no necessity in killing animals for nonessential purposes such as adornment fashion or vanity The argument for utility simply doesn t hold up Alternative

clothing is now readily available enduring and less costly Worse still since we know that the animals exploited are sentient causing them suffering or making animals liable to suffering is arguably intrinsically wrong The purpose of this volume is to open up and advance further the ethical political and specifically legislative endeavors now moving at pace and to encourage the anti fur movement That said there is much to learn from this book about the history culture and political arguments for and against fur that should interest scholars and students as well as those engaged on either side of the debate It is not common for academics to engage with pressing and contentious moral issues and we pay tribute to our eighteen contributors for leading the way

Upriver Journeys Steven B. Miles, 2020-10-26 Tracing journeys of Cantonese migrants along the West River and its tributaries this book describes the circulation of people through one of the world's great river systems between the late sixteenth and mid nineteenth centuries Steven B Miles examines the relationship between diaspora and empire in an upriver frontier and the role of migration in sustaining families and lineages in the homeland of what would become a global diaspora Based on archival research and multisite fieldwork this innovative history of mobility explores a set of diasporic practices ranging from the manipulation of household registration requirements to the maintenance of split families Many of the institutions and practices that facilitated overseas migration were not adaptations of tradition to transnational modernity rather they emerged in the early modern era within the context of riverine migration Likewise the extension and consolidation of empire required not only unidirectional frontier settlement and sedentarization of indigenous populations It was also responsible for the regular circulation between homeland and frontier of people who drove imperial expansion even while turning imperial aims toward their own purposes of socioeconomic advancement
