Rethinking What Works With Offenders:

Rethinking What Works with Offenders Stephen Farrall, 2022-04-27 When it was published twenty years ago *Rethinking What Works with Offenders* made a major contribution to criminological knowledge on why people stopped offending and the impact the probation service had on the desistance process Unlike other studies that had relied on official conviction data it was the first to make use of self reported data including interviews with men and women on probation and their supervising Probation Officers It reconceptualised probation outcomes in terms of degrees of success rather than as successful or unsuccessful and offered important policy implications of these conclusions The Twentieth Anniversary edition contains the original text along with a new Foreword by Shadd Maruna and Fergus McNeill locating the book historically and assessing its continued importance to Criminology It also includes a new chapter by the author reporting on the key findings of the follow up interviews in 2004 and 2010 12 reflecting on key developments in the field and developing a theory of assisted desistance Furthermore it features four new commentaries from Mark Halsey Isabelle F Dufour Martine Herzog Evans and Jos Cid reflecting on the importance and legacy of the book This book presents an important and challenging range of findings on what works in probation and with offenders and remains essential reading for anybody professionally concerned with the present and future of probation

Constructive Work with Offenders Nigel Parton, Marilyn Gregory, Michelle Hayles, Kevin Gorman, 2006-01-27 This book offers a challenge to many of the assumptions of criminal justice policy and the dominant approaches to practice The contributors advocate an emphasis on constructive work with offenders that harnesses their positive strengths and resources and offers inclusive approaches to effective offender assessment and intervention

Developments in Social Work with Offenders Peter Raynor, Gill McIvor, 2007-09-15 *Developments in Social Work with Offenders* explains the organisational and legislative changes that have occurred in social work and probation across the UK in the past 10 years in the context of the accumulating body of knowledge about what constitutes effective practice in the assessment supervision and management of offenders in the community

Understanding Psychology and Crime James McGuire, 2004-09-16 This is an exceptional book that comprehensively covers the interface between psychology and criminology regarding an empirical understanding of crime It is written in an engaging and accessible manner nicely linking key themes in order to situate the contribution of psychology to theories of criminal behaviour strategies for informed practice and contemporary challenges It should prove to be an incredible resource for students but also be of interest to researchers and clinicians I cannot recommend this text more heartily Dr Ralph Serin Carleton University Canada James McGuire is one of the leading international experts on what works in reducing reoffending and he has written an extremely valuable and accessible textbook on psychology and crime The book is a clearly written well researched and up to date survey of important contributions of psychology to key criminological issues It is especially noteworthy for its illuminating reviews of cognitive social learning theories risk factors and longitudinal studies risk

assessment cognitive behavioural programmes and meta analyses of treatment effectiveness Professor David Farrington
Institute of Criminology University of Cambridge What contributions can psychology make to our understanding of crime
How can psychological models and research help to prevent crime and reduce repeat offending This highly readable book
discusses the complex relationships between psychology criminology and criminal justice Challenging the assumptions of
those who object to the use of psychology within criminology this book shows how a methodical approach to the study of
criminal behaviour can generate both systematic findings and practical solutions to problems McGuire argues for a broader
understanding of crime based on factors such as the individual s cognitive and emotional development in addition to the
influences of socialization peer groups and the social and economic environment He highlights the value of understanding
pathways to offending behaviour and the critical points at which choices are made Topics include Theoretical and empirical
research foundations of criminogenic risk factors Theory turned into practice the development of offending behaviour
programmes A psychological perspective on some core concepts in criminology retribution deterrence and incapacitation
Major practical applications of psychology in policing prosecution and sentencing This authoritative and stimulating text is
essential reading for students in criminology and psychology and for criminal justice practitioners and policy makers

Constructive Work with Offenders Kevin Gorman, 2006 Constructive Work with Offenders offers a challenge to many
of the assumptions of criminal justice policy and the dominant approaches to practice The contributors advocate an emphasis
on constructive work with offenders that harnesses their positive strengths and resources and offers inclusive approaches to
effective offender assessment and intervention Taking a fresh look at much received knowledge they proclaim that
constructive work with offenders is both possible and increasingly warranted and encourage practitioners to develop new
skills and adapt existing expertise to the rapidly changing requirements of the criminal justice system This book will be of
interest to practitioners trainers managers and researchers in the criminal justice system as well as academics and students
in the field of criminology and related disciplines **Offenders or Citizens?** Philip Priestley, Maurice Vanstone, 2012-12-06
The punitive prison currently dominates the practice of Anglo American criminal justice stigmatising its victims as perpetual
offenders and failing to change a majority of them for the better Books of academic readings sometimes profess neutrality
over the controversies they invigilate Offenders or Citizens sits on no such fences its pages reflect the fiercely partisan
nature of the contest between rehabilitation and punishment Probation social work youth justice law corrections criminology
journalism philosophy politics popular culture psychology anthropology and sociology the voices of participants professionals
and writers from many realms are all represented in this lively selection Its aim to stimulate and furnish a debate about the
proper place of rehabilitation within a plural morally defensible and effective response to crime This book will be essential
reading for both students and practitioners within criminal justice who have an interest in the rehabilitation of convicted
individuals and providing an essential broader context to the what works debate Life Beyond Murder Dan Gabriel

Rusu,2024-11-18 Detailing the resettlement narratives of five men who have committed different types of murder confrontational revenge financial gain random intimate partner femicide and family feud this book counters narratives of neoliberal responsabilizing messages of individualism to investigate what informs their experiences of resettlement Life Beyond Murder Exploring the Identity Reconstruction of Mandatory Lifers After Release explores the impact of mandatory lifers institutionalisation families consumer culture emotions and supervision considering how these factors hamper or assist with their transition from the stigmatising identity of being dangerous murderers The book s discussion is guided by the men s narratives employing a tug of war metaphor to elucidate the push pull forces that influence the men s efforts to reconstruct their lives in the years following their release To be successful the book argues these men have to reconcile a paradoxical situation and the most skilled mandatory lifers manage to relativise their involvement in murder whilst concomitantly showing remorse This situation is achieved through a Splitting Narrative that ultimately defends against anxiety contains internal stigma and often showcases self flagellant remorse as they move towards positive social identities such as philanthropists family men wounded healers and pious members of the church *Imaginary Penalties* Pat

Carlen,2013-01-11 This book is concerned to explore the idea of imaginary penalties and to understand why the management of criminal justice and criminal justice systems has so often reached crisis point Its underlying theme is that when political strategies of punitive populism are combined with managerialist techniques of social auditing a new all encompassing form of governance has emerged powerless to deliver what it promises but with a momentum of its own and increasingly removed from proper democratic accountability A highly distinguished international group of contributors explores this set of themes in a variety of different contexts taken from the UK N America Europe and Australia It will be essential reading for anybody seeking to understand some of the root causes of increasing prison populations social harms such as recidivism and domestic violence and the increasingly important role of criminal justice within systems of governance

Youth Desistance in Transition Christopher Kay,2025-10-20 This book offers a new and innovative way of thinking about desistance from crime fusing our understanding of desistance transitions youth transitions and the impact of significant policy change on people with convictions in a way which is yet to be seen in the available desistance literature It offers a critical account of the ways in which young adults move away from involvement in crime while also navigating the numerous personal social and structural transitions that characterise late adolescence By exploring the desistance narratives of young adult men under community supervision in England and Wales during the part privatisation of the probation service the book demonstrates the immediate impact of significant criminal justice policy change on those on the receiving end of such change Given the expansion of neoliberal ideas in criminal justice and the ever changing nature of criminal justice policy across the world it is vital that we develop a critical understanding of the impact of these changes upon the often overlooked people on the receiving end of them if we are to understand how such changes can be successful This book

provides the first of such discussions charting the ways in which people with convictions navigate seemingly all encompassing change to lead a life free from crime Youth Desistance in Transition will be of interest to students and scholars of criminology and criminal justice particularly those focused on understanding desistance pathways It will also appeal to policymakers and social workers involved with youth justice and rehabilitation

Alternatives to Prison Anthony Bottoms, Sue Rex, Gwen Robinson, 2013-01-11 As the UK and many other western societies face up to the consequences of a rapidly increasing prison population so the search for alternative approaches to punishment and dealing with offenders has become an increasingly urgent priority for government policy and society as a whole This book reports the results of the research programme commissioned by the Coulsfield Inquiry into Alternatives to Prison which was funded by the Esme Fairbairn Rethinking Crime and Punishment initiative It is written by leading authorities in the field and provides a comprehensive authoritative and wide ranging review of the range of issues associated with the use of noncustodial sanctions examining experiences in Scotland and Northern Ireland as well as England and Wales
