Routledge Companion to the Frankfurt School Peter E. Gordon, Espen Hammer, Axel Honneth, 2018-09-03 The portentous terms and phrases associated with the first decades of the Frankfurt School exile the dominance of capitalism fascism seem as salient today as they were in the early twentieth century The *Routledge Companion to the Frankfurt School* addresses the many early concerns of critical theory and brings those concerns into direct engagement with our shared world today In this volume a distinguished group of international scholars from a variety of disciplines revisits the philosophical and political

contributions of Theodor W Adorno Walter Benjamin Max Horkheimer Herbert Marcuse Jürgen Habermas Axel Honneth and others Throughout the Companion's focus is on the major ideas that have made the Frankfurt School such a consequential and enduring movement It offers a crucial resource for those who are trying to make sense of the global and cultural crisis that has now seized our contemporary world *Politics by Other Means*, **Critical Theory: The Basics** Martin Shuster, 2024-05-27 Critical Theory The Basics brings clarity to a topic that is confusingly bandied about with various meanings today in popular and academic culture First defined by Max Horkheimer in the 1930s critical theory now extends far beyond its original German context around the Frankfurt School and the emergence of Nazism We now often speak of critical theories of race gender anti colonialism and so forth This book introduces especially the core program of the first generation of the Frankfurt School including Horkheimer Theodor W Adorno Erich Fromm and Herbert Marcuse and shows how this program remains crucial to understanding the problems ideologies and systems of the modern world including capitalism racism sexism and the enduring problems of colonialism It explores basic questions like What is critical theory What can critical theory be What should it be Why and how does critical theory remain vital to understanding the contemporary world including notions of self society politics art religion culture race gender and class With suggestions for further reading this book is an ideal starting point for anyone seeking an accessible but robust introduction to the richness and complexity of this tradition and to its continuing importance today British Marxism and Cultural Studies Philip Bounds, David Berry, 2016-04-20 A comprehensive exploration of the profound influence of Marxist ideas on the development of Cultural Studies in Britain this volume covers a century of Marxist writing balancing synoptic accounts of the various schools of Marxist thought with detailed analyses of the most important writers Arguing that a recognisably Marxist tradition of cultural analysis began in the last two decades of the nineteenth century and continues unbroken to the present day British Marxism and Cultural Studies traces the links between contemporary developments in the field and the extended tradition of which they form a part With discussion of figures such as Jack Lindsay C L R James Julian Stallabrass and Mike Wayne as well as the cultural thinking of the New Left Gramscian Althusserian and Political Economy schools this book shows that the history of British cultural Marxism is broader and richer than many people realise As such it will be of interest to scholars and students of sociology cultural studies intellectual history and the history of the Left **Fashion Journalism** Sanda Miller, Peter McNeil, 2018-02-22 Fashion is all around us and so too is fashion journalism Discussions of fashion proliferate in an ever increasing range of media from newspapers and magazines to tweets and TV programs Fashion Journalism History Theory and Practice is an accessible comprehensive guide to writing about fashion in any form whether in style blogging magazine interviews news reportage or art reviews Exploring what sets fashion journalism apart from other forms of journalistic writing the book features a wide range of global fashion case studies from Carmel Snow's reporting on Dior's New Look to 1970s responses to Yves Saint Laurent and Diana Vreeland's role as a fashion editor Through a series of

Marx and the Political Economy of the Media, 2015-09-29 More than 130 years after Karl Marx's death and 150 years after the publication of his opus magnum Capital Critique of Political Economy capitalism keeps being haunted by period crises The most recent capitalist crisis has brought back attention to Marx's works This volume presents 18 contributions that show how Marx's analyses of capitalism the commodity class labour work exploitation surplus value dialectics crises ideology class struggles and communism help us to understand media cultural and communications in 21st century informational capitalism Marx is back This book is a key resource on the foundations of Marxist Media Cultural and Communication Studies

Freedom and Negativity in Beckett and Adorno Natalie Leeder, 2017-05-04 Since his notorious 1961 lecture Trying to Understand Endgame Theodor W Adorno's name has been frequently coupled with that of Samuel Beckett This book offers a radical reappraisal of the intellectual affinities between these two figures whose paths crossed all too fleetingly Specifically the book argues for a preoccupation with the concept of freedom in Beckett's works one which situates him as a profoundly radical and even political writer Adorno's own more explicit reconceptualization of freedom and its scarcity in modernity offers a unique lens through which to examine the way Beckett's works preserve a minimal space of freedom that acts in opposition to an unfree social totality While acknowledging both the biographical encounters between Adorno and Beckett and the influence Beckett's writings had on Adorno's aesthetics Natalie Leeder goes further to establish a dialogue between their intellectual positions working with a range of texts from both writers and seeking insight in Adorno's less familiar works as well as his magnum opera Aesthetic Theory and Negative Dialectics

The Politics of Unreason Lars Rensmann, 2017-07-25 Although the Frankfurt School represents one of the most influential intellectual traditions of the twentieth century its multifaceted work on modern antisemitism has so far largely been neglected The Politics of Unreason fills this gap providing the first systematic study of the Frankfurt School's philosophical psychological political and social research and theorizing on the problem of antisemitism Examining the full range of these critical theorists' contributions from major studies and prominent essays to seemingly marginal pieces and aphorisms Lars Rensmann reconstructs how the Frankfurt School faced with the catastrophe of the genocide against the European Jews explains forms and causes of anti-Jewish politics of hate The book also pays special attention to research on coded and secondary antisemitism after the Holocaust and how resentments are politically mobilized under conditions of democracy By revisiting and rereading the Frankfurt School's original work this book challenges several misperceptions about critical theory's research making the case that it provides an important source to better understand the social origins and politics of antisemitism racism and hate speech in the modern world
