Revolting Subjects Social Abjection And Resistance In Neoliberal Britain:

Revolting Subjects Doctor Imogen Tyler, 2013-04-11 *Revolting Subjects* is a groundbreaking account of social abjection in contemporary Britain exploring how particular groups of people are figured as revolting and how they in turn revolt against their abject subjectification. The book utilizes a number of high profile and in depth case studies including chavs asylum seekers Gypsies and Travellers and the 2011 London riots to examine the ways in which individuals negotiate restrictive neoliberal ideologies of selfhood. In doing so Tyler argues for a deeper psychosocial understanding of the role of representational forms in producing marginality social exclusion and injustice whilst also detailing how stigmatization and scapegoating are resisted through a variety of aesthetic and political strategies. Imaginative and original *Revolting Subjects* introduces a range of new insights into neoliberal societies and will be essential reading for those concerned about widening inequalities growing social unrest and social justice in the wider global context. *Revolting Subjects* Imogen

English Theatre and Social Abjection Nadine Holdsworth, 2020-08-18 Focusing on contemporary English theatre this book asks a series of questions. How has theatre contributed to understandings of the North South divide? What have theatrical treatments of riots offered to wider debates about their causes and consequences? Has theatre been able to intervene in the social unease around Gypsy and Traveller communities? How has theatre challenged white privilege and the persistent denigration of black citizens? In approaching these questions this book argues that the nation is blighted by a number of internal rifts that pit people against each other in ways that cast particular groups as threats to the nation as unruly or demeaned citizens as social abjects. It interrogates how those divisions are generated and circulated in public discourse and how theatre offers up counter hegemonic and resistant practices that question and challenge negative stigmatization but also how theatre can contribute to the recirculation of problematic cultural imaginaries.

The Sexual Logics of Neoliberalism in Britain Aura Lehtonen, 2022-12-30 This book explores the relationship between sexuality and politics in Britain's recent political past in the decade preceding the Covid 19 pandemic and asks what sexual meanings and logics are embedded in the dominant political discourses and policies of this time. A discursive framing of

exceptionality has commonly attached to the politics of austerity crisis and neoliberalisation that have characterised the 2010s in Britain with many noting the depoliticising effects of such a crisis politics The book's four case studies each investigate a binary concept that has played a key role in these limited and limiting discourses the stable family troubled family deserving undeserving public private and material cultural Deploying an expansive notion of sexuality these binaries are examined by analysing a range of cultural and political texts in which they are reproduced from policy and legal documents to popular films and TV series This empirically informed and theoretically innovative analysis makes an important contribution to understandings of sexuality identity and inequalities as well as of crisis and neoliberalism It will be of interest to scholars and students in gender and sexuality studies cultural studies sociology politics and social policy

The Discourse of Neoliberalism Simon Springer, 2016-07-29 Why should we be worried about neoliberalism if we are not able to fully appreciate its deleterious effects How can we fully appreciate its intricacies and power without attending to and seeking to potentially reconcile the various critical theorizations of how it actually operates The Discourse of Neoliberalism offers a critical political economy meets poststructuralist perspective on the relationship between neoliberalism and power By advancing a geographical approach to understanding the discursive formations and material consequences of neoliberalism the book exposes how processes of neoliberalization are shot through with violence It argues that reading neoliberalism as a discourse better equips us to understand the power of this variegated economic formation as an expansive process of social spatial transformation that is intimately bound up with the production of poverty inequality and violence across the globe It illuminates the vital and ongoing power of neoliberalism in order to open up a critical space for thinking through how life beyond neoliberalism might be achieved

Feminism and the Politics of Resilience Angela McRobbie, 2020-04-20 In this short and provocative book cultural studies scholar Angela McRobbie develops a much needed feminist account of neoliberalism Highlighting the ways in which popular culture and the media actively produce and sustain the cultural imaginary for social polarization she shows how there is substantial pressure on women not just to be employed but to prioritize working life She fiercely challenges the media gatekeepers who shape contemporary womanhood by means of exposure and public shaming and pays particular attention to the endemic nature of anti-welfarism as it is addressed to women thereby reducing the scope for feminist solidarity In this theoretically rich and deep analysis of current cultural processes McRobbie introduces a series of concepts

including visual media governmentality and the urging of women into work as contraceptive employment Foregrounding a triage of ideas as the perfect imperfect resilience McRobbie conveys some of the key means by which consumer capitalism attempts to manage the threats posed by the new feminisms She proposes that resilience emerges as a compromise as hard edged neoliberalism proffers the option of a return to liberal feminism A lively and devastating critique *Feminism and the Politics of Resilience* offers a much needed wake up call It is essential reading for students and scholars of cultural studies media sociology and women s and gender studies

Masculinity, Labour, and Neoliberalism Charlie Walker, Steven Roberts, 2017-09-19 This book explores the ways in which neoliberal capitalism has reshaped the lives of working class men around the world It focuses on the effects of employment change and of new forms of governmentality on men s experiences of both public and private life The book presents a range of international studies from the US UK and Australia to Western and Northern Europe Russia and Nigeria that move beyond discourses positing a masculinity crisis or pathologizing working class men Instead the authors look at the active ways men have dealt with forms of economic and symbolic marginalization and the barriers they have faced in doing so While the focus of the volume is employment change it covers a range of topics from consumption and leisure to education and family

Abject Performances Leticia Alvarado, 2018-04-19 In *Abject Performances* Leticia Alvarado draws out the irreverent disruptive aesthetic strategies used by Latino artists and cultural producers who shun standards of respectability that are typically used to conjure concrete minority identities In place of works imbued with pride redemption or celebration artists such as Ana Mendieta Nao Bustamante and the Chicano art collective known as Asco employ negative affects shame disgust and unbelonging to capture experiences that lie at the edge of the mainstream inspirational Latino centered social justice struggles Drawing from a diverse expressive archive that ranges from performance art to performative testimonies of personal faith based subjection Alvarado illuminates modes of community formation and social critique defined by a refusal of identitarian coherence that nonetheless coalesce into Latino affiliation and possibility

Ethics and Nationalist Populism at the British Seaside Ana Carolina Balthazar, 2021-04-27 Drawing on ethnographic research at the British seaside this book offers an original and insightful anthropological contribution to the study of contemporary Britain and nationalism The volume focuses on people who have retired from different parts of the UK to the seaside town of Margate and nearby areas exploring their ethical negotiations and relationship with things that have history It considers how residents engage daily with objects houses and places with character and how such ordinary engagements underlie nationalist sentiments and the Brexit vote Ana Carolina Balthazar demonstrates that those who have reached a comfortable financial position often look for ways to reconnect with their working class upbringing and while doing so engage with the national past in a very tangible manner Contributing to social scientific debates on class dynamics and ethics the book provides a different perspective on nationalist populism one which moves beyond media stereotypes and arguments made about the left behind and longing for empire in post industrial Britain
