Reworking The Student Departure Puzzle:

Reworking the Student Departure Puzzle John M. Braxton, 2000 Contributors offer a variety of theoretical and methodological perspectives on the departure puzzle and student retention Adapted from publisher's description

Reworking the Student Departure Puzzle 19?? **Understanding and Reducing College Student Departure** John M. Braxton, Amy S. Hirschy, Shederick A. McClendon, 2011-10-07 Student departure is a long standing problem to colleges and universities Approximately 45 percent of students enrolled in two year colleges depart during their first year and approximately one out of four students departs from a four year college or university The authors advance a serious revision of Tinto's popular interactionist theory to account for student departure and they postulate a theory of student departure in commuter colleges and universities This volume delves into the literature to describe exemplary campus based programs designed to reduce student departure It emphasizes the importance of addressing student departure through a multidisciplinary approach engaging the whole campus It proposes new models for nonresidential students and students from diverse backgrounds and suggests directions for further research Academic and student affairs administrators seeking research based approaches to understanding and reducing student departure will profit from reading this volume Scholars of the college student experience will also find it valuable in defining new thrusts in research on the student departure process

Thriving in Transitions Laurie A. Schreiner, Michelle C. Louis, Denise D. Nelson, 2020-11-18 When it was originally released *Thriving in Transitions: A Research Based Approach to College Student Success* represented a paradigm shift in the student success literature moving the student success conversation beyond college completion to focus on student characteristics that promote high levels of academic interpersonal and intrapersonal performance in the college environment The authors contend that a focus on remediating student characteristics or merely encouraging specific behaviors is inadequate to promote success in college and beyond Drawing on research on college student thriving completed since 2012 the newly revised collection presents six research studies describing the characteristics that predict thriving in different groups of college students including first year students transfer students high risk students students of color sophomores and seniors and offers recommendations for helping students thrive in college and life New to this edition is a chapter focused on the role of faculty in supporting college student thriving

Nursing Student Retention Marianne R. Jeffreys, 2004-05-24 In the current nursing shortage student retention is a priority concern for nurse educators health care institutions and the patients they serve This book presents an organizing framework for understanding student retention identifying at risk students and developing both diagnostic prescriptive strategies to facilitate success and innovations in teaching and educational research The author's conceptual model for student retention *Nursing Undergraduate Retention and Success* is interwoven throughout along with essential information for developing implementing and evaluating retention strategies An entire chapter is devoted to how to set up a Student Resource Center Most chapters conclude with Educator in Action

vignettes which help illustrate practical application of strategies discussed Nurse educators at all levels will find this an important resource

Minority Student Retention Alan Seidman, 2019-05-23 Student retention continues to be a vexing problem for all colleges and universities In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals and graduate the figures have not improved over time This is particularly true for minority students who have a greater attrition rate than majority students Demographic information shows that the minority population in the United States is growing at a faster rate than the majority It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students Retention rates should not differ appreciably among different racial ethnic groups The Journal of College Student Retention Research Theory and Practice is the only scholarly peer reviewed journal devoted solely to college student retention It has published many articles on minority student retention and this topic continues to garner much attention This book is a compilation of the very best of these articles selected on the basis of reviews by a cadre of experts in the education field The articles discuss African American Latino Latina Asian and Asian Pacific Native American and biracial students and institutional commitments to retaining a diverse student population For those interested in this vital area the collection will teach and inspire them to achieve greater heights and pay additional attention to retaining minority students in our colleges and universities

Improving College Student Retention Robert D. Reason, John M. Braxton, 2023-07-03 Higher education institutions have already begun to see decreasing enrollment numbers even as higher education enrollment is predicted to drop precipitously starting in 2025 Much of the decrease in enrollment will be driven by demographic trends about which higher education institutions can do little making the retention of students who do enroll that much more important Overall retention rates have stagnated and differential retention rates by race and ethnicity have persisted If higher education institutions researchers and policy makers are to improve retention rates a critical examination of the current state and future directions of retention research is essential This edited volume begins that examination by addressing several questions What are the needed directions in theory and research on college student persistence and how do we translate new theory and research into effective practices Are we asking the right questions looking in the right places or trying to apply out of date theories to new populations In short how can the research community help institutions improve retention in this challenging time

College Student Retention Alan Seidman, 2024-08-09 College student retention continues to be a top priority among colleges universities educators federal and state legislatures parents and students While access to higher education is virtually universally available many students who start in a higher education program do not complete the program or achieve their academic and personal goals In spite of the programs and services colleges and universities have devoted to this issue student retention and graduation rates have not improved considerably over time College Student Retention Formula for Student Success Third Edition offers a solution to this vexing problem It provides background

information about college student retention issues and offers the educational community pertinent information to help all types of students succeed The book lays out the financial implications and trends of retention Current theories of retention retention of online students and retention in community colleges are also thoroughly discussed Completely new to this edition are chapters that examine retention of minority and international students Additionally a formula for student success is provided which if colleges and universities implement student academic and personal goals may be attained

Fostering Success of Ethnic and Racial Minorities in STEM Robert T. Palmer, Dina C. Maramba, Marybeth Gasman, 2013 To maintain competitiveness in the global economy United States policymakers and national leaders are increasing their attention to producing workers skilled in science technology engineering and mathematics STEM Given the growing minority population in the country it is critical that higher education policies pedagogies climates and initiatives are effective in promoting racial and ethnic minority students educational attainment in STEM Minority Serving Institutions MSIs have shown efficacy in facilitating the success of racial and ethnic minority students in STEM and are collectively responsible for producing nearly one third of the nation's minority STEM graduates In *Fostering Success of Ethnic and Racial Minorities in STEM* well known contributors share salient institutional characteristics unique aspects of climate pedagogy and programmatic initiatives at MSIs that are instrumental in enhancing the success of racial and ethnic minority students in STEM education This book provides recommendations on institutional practice policy and lessons that any institution can use on their campus to foster better retention and persistence among minority students Higher Education leaders and administrators interested in encouraging achievement among racial and ethnic minority students in STEM education will find this book a welcomed and timely addition to the discourse on promoting minority student success

Administratively Adrift Scott A. Bass, 2022-06-09 The multiple crises of 2020-21 have presented both challenges and opportunities for change in four year residential colleges and universities Evidence indicates that the historic structure of administrative and student services is increasingly mismatched to the needs of a diverse and stressed student body born in a digital age Inspired by his leadership in a university wide initiative that focused on how students interactions with both academic and professional staff affect their success and well being Scott A Bass presents fresh insights on the inner workings of traditional nonprofit four year degree residential institutions The book describes the influences of history tradition and internal and external pressures on the American university highlighting its evolution to its staid and fragmented structure it distills voices of students faculty and staff and it explores how successful organizations outside of higher education deliver services with potential applicability for the academy's ability to meet students where they are
