Global Sport Business Hans Westerbeek, 2013-09-13 Global Sport Business The Community Impact of Commercial Sport involves a range of pressing issues that come with the arrival of sport as a commodity in the world economy It can be argued that throughout the past two centuries sport has always been recognized as both a frivolous pursuit of spending leisure time with friends and family and as an activity that has substantial commercial value to be mined by entrepreneurs However only during the most recent wave of globalization spurred by technological advancements that have led to achieving global reach in regard to potential customers has sport entered a global marketplace that offers tremendous financial rewards for those who manage to control international sport organizations and events In this book global sport business is viewed from a number of different perspectives including a value chain approach to describing the sport industry the ever increasing impact of the international media on sport business how globalization influences the style of sport management how social capital can be generated through sport business and the emergence of social sport business Overall the different contributors to the book reflect on how sport s global and as such commercial attractiveness can and often will impact locally on communities of people and individuals This book was published as a special issue of Sport in Society

Science and Football III Jens Bangsbo, Thomas Reilly, A Mark Williams, 2014-02-04 The Third World Congress of Science and Football was held in Cardiff Wales in April 1995 The aim of the conference was to continue to bridge the gap between the theory and practice of the various branches of football and increase the awareness of the value of a scientific approach to these games These aims and the outcomes of the conference are reflected in this third volume of Science and Football The volume is divided into eight parts each part containing a group of papers that are related by theme or disciplinary approach Metabolism and nutrition football training match analysis medical aspects of football and psychology and football behaviour are just a few of the areas covered in this comprehensive in depth volume that has been fully edited and revised The conclusions drawn during the congress represent an invaluable practical reference for coaches scientists players managers and all those involved in the many football codes
