

MURPHY'S

LAWS

OF COMBAT

1. You are not a superman.
2. If it's stupid but works, it isn't stupid.
3. Don't look conspicuous - it draws fire. (This is why aircraft carriers are called, "Bomb Magnets".)
4. When in doubt, empty your magazine.
5. Never share a foxhole with anyone braver than you are.
6. Never forget that your weapon was made by the lowest bidder.
7. If your attack is going really well, it's an ambush.
8. No plan survives the first contact intact.
9. All five-second grenade fuses will burn down in three seconds.
10. Try to look unimportant because the bad guys may be low on ammo.
11. If you are forward of your position, the artillery will fall short.
12. The enemy diversion you are ignoring is the main attack.
13. The important things are always simple.
14. The simple things are always hard.
15. The easy way is always mined.
16. If you are short of everything except enemy, you are in combat.
17. When you have secured an area, don't forget to tell the enemy.
18. Incoming fire has the right of way.
19. Friendly fire - isn't.
20. If the enemy is in range, "SO ARE YOU!!!!"
21. No combat ready unit has ever passed inspection.
22. Beer math is: two beers times 37 men = 49 cases.
23. Body count math is: two guerillas plus one portable plus two pigs = 37 enemy killed in action.
24. Things that must be together to work, usually can't be shipped together.
25. Radio's will fail as soon as you need fire support desperately.
26. Anything you do can get you shot - including doing nothing.
27. Tracers work both ways.
28. The only thing more accurate than incoming enemy fire is incoming friendly fire.
29. Make it tough for the enemy to get in and you can't get out.
30. If you take more than your fair share of objectives, you will have more than your fair share of objectives to take.
31. When both sides are convinced that they are about to lose, they are both right.
32. Professional soldiers are predictable, but the world is full of amateurs.
33. Murphy was a grunt.

Murphys Laws Of Combat

William C. Knowles

Murphys Laws Of Combat:

Murphy's Laws of Combat Marion F. Sturkey, 2003 *Murphy's Laws of Combat* is the book for warriors who want to survive in battle. If the reader despises wannabes and whiney babies, this is the book he needs. There are separate chapters for infantry and aviation warriors and special laws for those who fly into combat in helicopters. Off duty, the reader can study *Murphy's Beer Drinking Guide*, browse through the principles of stupidity, and examine the dreaded politically correct disease. The book concludes with a serious look at the military heritage of the U.S. Armed Forces. *Hawke's Green Beret Survival Manual* Mykel Hawke, 2011-12-20 The perfect home reference book for both seasoned outdoorsmen and average citizens to learn comprehensive outdoor survival techniques. This practical survival guide from U.S. Special Forces Captain and outdoor survival expert Mykel Hawke includes illustrated instruction on shelter and water, food and fire, tools and medicine, navigation and signaling, survival psychology. Hawke's engaging style and matter-of-fact attitude, not to mention his incredible resume in the survival arena, elevates this book above its competition. *Murphy's War Stories* William C. Knowles, 2023-08-18 *Murphy's War Stories* spans two wars and is the story of a young man who drops out of high school and joins the US Army to become a paratrooper after the 1968 TET offensive in Vietnam. He completes airborne training and is sent to the famous 82nd Airborne Division. Later, he becomes the enlisted aide to the Commandant of Cadets at West Point, where he associates with several US Army Generals. Afterwards, he is sent to Vietnam, where he completes a tour fighting the North Vietnamese. While in Vietnam, he receives the Silver Star. While a member of the Army Reserve, he is later activated for the Iraq War. During his time in Iraq, he compares and contrasts his two wars and the differences between the old army and the new army in Iraq.

Hawke's Special Forces Survival Handbook Mykel Hawke, 2011-04-26 U.S. Special Forces Captain and outdoor survival expert Mykel Hawke provides the most practical and accessible survival skills and information necessary to survive in the outdoors. These methods are based on Hawke's 25-year career as a Captain in the U.S. Army as founder of the survival training company Special Ops Inc. and as a popular survival expert on television, including his Discovery Channel series *Man Woman Wild*. Geared to the untrained civilian, Hawke's *Special Forces Survival Handbook* provides illustrated how-to info on shelter, water, fire, food, first aid, tools, navigation, signaling, and survival psychology. Now with a flexibind cover and small format, perfect for the glove compartment and backpack, this edition gives readers the tools necessary to survive the worst circumstances and make it out alive. **Military Intelligence**, 1991 **Fighting the White Knight** Jocelyn Turner, 2023-01-12 In her final year of teaching, Jocelyn Turner spent over one-fifth of each week administering mandatory tests and quizzes. She spent the remaining time preparing students to take those specific exams regardless of the background knowledge and preparedness of individual students. While she was testing, she could not teach. Teachers were expected to present the same Common Core-based grade-specific material to all their students at the same time, whether Jake was reading at a first-grade level or Taylor at a ninth-grade level. It was a rare and lucky child who fit the profile of the year's

onslaught of tests Since No Child Left Behind US schools have been burying students in tests and then drawing often misguided conclusions when sometimes the only conclusion anyone ought to draw is that student X obviously spent hours staring at a set of questions he or she did not understand and maybe could not even read We have been told that US education is in crisis Ms Turner agrees In Fighting the White Knight she argues that government mandates created and are now perpetuating this crisis depriving children of remedial learning instruction time and personal attention Fighting the White Knight also looks at the 1.6 trillion student debt crisis a consequence of today's single minded college bound pipeline vocabulary deficits left to fester due to narrowly targeted curricula and the sneaky gutting of elective vocational technical and gifted education Ms Turner concludes by advocating for changes she believes can rescue American education guiding children back to the safe inspirational learning experiences of a more student focused time
