

An abstract graphic featuring a dense, dark, scribbled mass in the center. This mass is overlaid with a complex network of thin, black, intersecting lines that radiate outwards. The background consists of soft, blended washes of color, including shades of orange, red, and blue, which appear to be part of a larger, more fluid composition.

MUSIC. POLITICS. AND VIOLENCE

EDITED BY SUSAN FAST AND KIP PEGLEY

Music Politics And Violence Musicculture

Daniel Asia

Music Politics And Violence Musicculture:

Music, Politics, and Violence Susan Fast, Kip Pegley, 2012-11-16 Music and violence have been linked since antiquity in ritual myth and art. Considered together they raise fundamental questions about creativity, discourse, and music's role in society. The essays in this collection investigate a wealth of issues surrounding music and violence: issues that cross political boundaries, time periods, and media, and provide cross-cultural case studies of musical practices ranging from large-scale events to regionally specific histories. Following the editors' substantive introduction, which lays the groundwork for conceptualizing new ways of thinking about music as it relates to violence, three broad themes are followed: the first set of essays examines how music participates in both overt and covert forms of violence; the second section explores violence and reconciliation; and the third addresses healing, post-memorials, and memory. **Music Politics and Violence** affords space to look at music as an active agent rather than as a passive art, and to explore how music and violence are closely and often uncomfortably entwined. CONTRIBUTORS include Nicholas Attfield, Catherine Baker, Christina Baade, J. Martin Daughtry, James Deaville, David A. McDonald, Kevin C. Miller, Jonathan Ritter, Victor A. Vicente, and Amy Lynn Wlodarski.

Music, Culture, and the Politics of Health Austin C. Okigbo, 2016-08-03 This book is an ethnographic study of a HIV/AIDS choir who use music to articulate their individual and collective experiences of the disease. The study interrogates, as to understand the bigger picture of HIV/AIDS, using the approach of microanalysis of music event. It places the choir and the cultural and political issues addressed in their music in the broader context of South Africa's public health and political history and the global culture and politics of AIDS.

Observations on Music, Culture, and Politics Daniel Asia, 2021-03-08 This book brings together the collected writings of Daniel Asia from the last 10 years. The articles, reviews, and essays gathered here originally appeared in noted publications such as *The New Criterion* and *Academic Questions*, and as blog entries with the *Huffington Post*. Topics discussed include classical music, universities, Judaism, politics, and American culture. All essays are presented in clear and elegant non-academic prose and are often imbued with a wry and delicate sense of humor. This book is a fine introduction to the current state of high culture in America, with an emphasis on classical music and its recent and current best composers. As such, it is perfect for the curious lay person seeking knowledge in these areas, and for academics and their students working in the areas of music composition, music history, introduction to music sociology, politics, education, American studies, and Jewish studies.

Music, Culture and Identity in the Muslim World Kamal Salhi, 2013-12-17 In contrast to many books on Islam that focus on political rhetoric and activism, this book explores Islam's extraordinarily rich cultural and artistic diversity, showing how sound, music, and bodily performance offer a window onto the subtleties and humanity of Islamic religious experience. Through a wide range of case studies from West Asia, South Asia, and North Africa, and their diasporas, including studies of Sufi chanting in Egypt and Morocco, dance in Afghanistan, and Muslim punk on line, the book demonstrates how Islam should not be conceived of as being monolithic or monocultural; how there is a large disagreement

within Islam as to how music and performance should be approached such disagreements being closely related to debates about orthodoxy secularism and moderate and fundamental Islam and how important cultural activities have been and continue to be for the formation of Muslim identity French Music, Culture, and National Identity, 1870-1939 Barbara L.
