Puppet Pals Instructions Guide:

An Educator's Guide to Dual Language Instruction Gayle Westerberg, Leslie Davison, 2016-04-14 This user friendly book is a key resource for teachers and administrators to ensure their school's success in implementing and maintaining a dual language program. Authors Gayle Westerberg and Leslie Davison share their own experiences leading a dual language school, the obstacles they overcame, and the best practices they learned along the way. The book is filled with step by step instructions and strategies you can try immediately as well as inspirational stories from educators in urban and rural dual language programs across the country. Topics include: Choosing a model for your dual language program and involving all stakeholders in the transition process; Marketing your program effectively to recruit students and staff including international teachers; Implementing a standards based instructional framework focused on direct vocabulary instruction, extensive reading, and using language in context; Setting proficiency targets and using internal and external assessments to track students' progress; Incorporating technology for a more interactive and engaging language learning experience. You'll also learn how to effectively transition your program through different grade levels and build a collaborative school culture for a strong, long lasting K-12 dual language program. Additional resources are available on the authors' website www.duallanguageinstruction.com. **The Ultimate Guide to Using ICT Across the Curriculum (For Primary Teachers)** Jon Audain, 2014-05-22

WHEN IT COMES TO USING TECHNOLOGY IN THE CLASSROOM ARE YOU a nervous beginner in need of tips for getting started, an expert user searching for some high tech creative activities, an ICT coordinator looking for advice on how to plan and implement your school provision? With the implementation of the new Primary Computing curriculum is the definitive guide to embedding ICT in all subjects across the primary school. From using digital cameras and Beebots to Twitter and mobile apps, the creative and up to date ideas in this book will motivate and engage your pupils and prepare them for the changing world of technology they are living in. As well as step by step instructions on how to use a variety of technologies effectively, this book covers e-safety and the digital child, planning and budgeting your provision, and how to use technology to support children with special educational needs.

The Maker Cookbook Cindy Wall, Lynn Pawloski, 2014-08-28 The Maker Movement is hot and librarians are eager to participate. Even if you feel restricted by budget, staff, or space, this step by step guide will help you turn your library into a creativity center. The Maker Movement is sweeping the nation because it is creative, educational, and a lot of fun. Nonetheless, some librarians have hesitated to incorporate the movement into their programming because their libraries do not have dedicated makerspaces. If that describes you, then take heart. Written by librarians for librarians, this cookbook proves that every library is already a MakerPlace and provides you with recipes to make your library come alive with creativity. Easy to use, step by step guidance helps you create engaging K-8 programs in science and technology, arts and crafts, and home skills that are perfect for the library setting. The menu of ideas is broken into four types of programming: Appetizers add a taste of the Maker movement to existing library programs; Entrees present

full programs for a lengthy one day event or a short series Side Dishes are programs you can use if you have limited staff budget space or any combination of those Desserts are low tech programs suitable for young children Each recipe includes extensions variations and curriculum tie ins that give you even more ways to present the program ideas whether to a different audience or as part of other related activities Programs that involve creating a Balloon Zip Line a Zen Garden or a Maker Marketplace will delight library users and generate activity and excitement in your library
