Preserving New York Winning Landmarks:

Preserving New York Anthony Wood, 2013-10-28 Preserving New York is the largely unknown inspiring story of the origins of New York City's nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the accepted myth that the landmarks law sprang from the wreckage of the great Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its treasured buildings, neighborhoods, and special places is brought together to enjoy, inform, and inspire all who love New York.

Duke House and the Making of Modern New York, 2022-10-17 Featuring new archival research and previously unpublished photographs and architectural plans, this volume fundamentally revises our understanding of the development of modern New York, focusing on elite domestic architecture within the contexts of social history, urban planning, architecture, interior design, and adaptive reuse. Contributions from emerging and established scholars, art historians, and practitioners offer a multi-faceted analysis of major figures such as Horace Trumbauer, Julian Francis Abele, Robert Venturi, and Richard Kelly. Taking the James B. Duke House, now home to NYU's Institute of Fine Arts, as its point of departure, this collection provides fresh perspectives on domestic spaces, urban forms, and social reforms that shaped early twentieth-century New York into the modern city we know today.

Guide to New York City Landmarks Andrew Dolkart, New York Landmarks Preservation Commission, 2008-12-03 The official guide to New York's must-see buildings, profiles a host of new landmarks, and includes 80 two-color, easy-to-read maps and more than 200 photographs. CRM, 2008 **Preserving South Street Seaport** James M. Lindgren, 2019-08-27 Preserving South Street Seaport tells the fascinating story from the 1960s to the present of the South Street Seaport District of Lower Manhattan. Home to the original Fulton Fish Market and then the South Street Seaport Museum, it is one of the last neighborhoods of late 18th and early 19th-century New York City not to be destroyed by urban development. In 1988, South Street Seaport became the city's 1st destination for visitors. Featuring over 40 archival and contemporary black and white photographs, this is the first history of a remarkable historic district and maritime museum. Lindgren skillfully tells the complex story of this unique cobblestoned neighborhood. Comprised of deteriorating 4-5 story buildings in what was known as the Fulton Fish Market, the neighborhood was earmarked for the erection of the World Trade Center until New Jersey

forced its placement one mile westward After Penn Station's demolition had angered many New York citizens preservationists mobilized in 1966 to save this last piece of Manhattan's old port and recreate its fabled 19th century Street of Ships The South Street Seaport and the World Trade Center became the yin and yang of Lower Manhattan's rebirth In an unprecedented move City Hall designated the museum as developer of the twelve block urban renewal district However the Seaport Museum whose membership became the largest of any history museum in the city was never adequately funded and it suffered with the real estate collapse of 1972 The city bankers and state bought the museum's fifty buildings and leased them back at terms that crippled the museum financially That led to the controversial construction of the Rouse Company's New Fulton Market 1983 and Pier 17 mall 1985 Lindgren chronicles these years of struggle as the defenders of the people oriented museum and historic district tried to save the original streets and buildings and the largest fleet of historic ships in the country from the schemes of developers bankers politicians and even museum administrators Though the Seaport Museum's finances were always tenuous the neighborhood and the museum were improving until the tragedy of 9/11 But the prolonged recovery brought on dysfunctional museum managers and indifference if not hostility from City Hall Superstorm Sandy then dealt a crushing blow Today the future of this pioneering museum designated by Congress as America's National Maritime Museum is in doubt as its waterfront district is eyed by powerful commercial developers While Preserving South Street Seaport reveals the pitfalls of privatizing urban renewal developing museum corporate partnerships and introducing a professional regimen over a people's movement it also tells the story of how a seedy decrepit piece of waterfront became a wonderful venue for all New Yorkers and visitors from around the world to enjoy This book will appeal to a wide audience of readers in the history and practice of museums historic preservation urban history and urban development and contemporary New York City This book is supported by a grant from Furthermore a program of the J M Kaplan Fund

Preservation and the Property Tax David Listokin, 2017-07-12 Historic preservation is an issue of growing importance and public commitment Federal and state mechanisms have been established to identify and support historic buildings sites while local governments have been active in supporting and protecting historic resources Communities across the country have established designation programs whereby individual buildings or districts of historical architectural significance are accorded landmark status Designation activity has been accompanied by growing interest in other local incentives disincentives to the support of historic buildings In this regard the property tax is viewed as either a possible powerful drawback to or a catalyst of preservation This study examines the relationship between historic preservation and the property tax focusing on the question of how designated buildings should be assessed for real taxation purposes Listokin focuses on New York City in considering the effects of historic status on property value and in evaluating assessment practices But this book's findings are transferrable to other communities because the base conditions are similar Many other cities have designation programs modeled on New York City's In addition New York's property tax system and administrative
