Pricing Health Services Transaction Approach:

Pricing Health Services: Transaction Cost Approach Monika Raulinajtys-Grzybek, 2015-05 According to the assumptions of classical economics the price should be set at the intersection of the supply and demand curve under the assumption of full information and rationality of market participants However in health care pricing is often regulated and price is set by the regulatory body Due to the fact that the regulations in terms of pricing include activities that lead to price setting of a good health service costs associated with these activities should be treated as transaction costs The study is the result of the research on the transaction costs of the pricing of health services The primary objective of the study is to identify the transaction costs occurring during the pricing of health services and characterize the factors that affect the level of transaction costs An additional objective of this study is to link the conclusions about the level of transaction costs to the conclusions regarding the accuracy of the cost based pricing in health care The empirical part of the work was carried out based on the analysis of primary and secondary sources Its aim was to present how pricing is organized in seventeen countries selected Cost-Based, Charge-Based, and Contractual Payment Systems Duane C. Abbey, 2018-06-28 The fourth book in the Healthcare Payment System series Cost Based Charge Based and Contractual Payment Systems compares cost based systems charge based payment approaches and contractually based payment processes with fee schedule payment systems and prospective payment systems Supplying readers with a clear understanding of important backgr *Costs and Delivery of Health Services to Older Americans* United States. Jonas and Kovner's Health Care Delivery in the United States, 11th Edition James R. Knickman, Anthony R. Kovner, PhD, Steven Jonas, 2015-04-08 Print CourseSmart **Implementation of Casemix System as Prospective Provider Payment Method in Social Health Insurance: a Case Study of Aceh Provincial Health Insurance** Prof Dr Syed Mohamed Aljunid, Dr Irwan Saputra, 2022-11-20 The Government of Aceh Province in Indonesia has established the Social Health Insurance SHI called Jaminan Kesehatan Aceh JKA in 2006 that provide health coverage to all 4.6 million population of the province Fee for service was initially used as the provider payment method in the programme until 2013 In 2014 in line with the National Health Insurance of Indonesia Jaminan Kesehatan Nasional JKN INA CBG Indonesia Case Based Group casemix system was adopted by JKA to replace the Fee for Service method This book presents outcome of the evaluation done using a combination of qualitative and quantitative methods on the implementation of JKA programme The quantitative study was conducted to assess income of three selected hospitals Type B C and D reimbursed using INA CBG groups covering more than 17 000 cases Quantitative data analysis revealed that overall the hospitals received 32.4% higher income when reimbursed with casemix system INA CBG as compared to fee for service Type D hospital is the biggest gainer with 81.0% increase in income In conclusion the use of Casemix INA CBG as a prospective payment method has benefitted the hospitals a lot It is hope that additional resources gained through this programme will allow the hospitals to provide optimum care to the population Engineering the System of Healthcare Delivery William B. Rouse, Denis A. Cortese, 2010 As the United States continues to debate reform of its healthcare system this book argues that providing health insurance for all without improving the delivery system will not improve the current problems of access affordability and quality The US healthcare system has many excellent components strong scientific input extraordinary technology for diagnosis and treatment dedicated staff and top class facilities among them But the system has evolved haphazardly over time and although

it has not failed entirely the authors argue that like any system where attention is paid to individual components at the expense of the system as a whole it can never hope to succeed Above all they point out that the US system does not provide high value healthcare it has the highest costs in the world and yet many other countries have lower infant mortality rates and better life expectancy Together with a team of highly regarded thought leaders the authors of this publication advocate a complete re thinking of healthcare from a systems perspective an engineering approach to healthcare and they then describe how to set about it Covering a wide range of subjects including health care costs and economics barriers to change integrated health systems electronic records and computer based patient support as well as patient safety and palliative and chronic care this book will be of interest to all those involved in healthcare provision whose goal is affordable care to promote healthy high quality lives
