Improving Organizational Interventions for Stress and Well-being Caroline Biron, Maria Karanika-Murray, Cary L. Cooper, 2012 This book brings together a number of experts in the field of organizational interventions for stress and well-being and discusses the importance of process and context issues to the success or failure of such interventions The book explores how context and process can be incorporated into program evaluation providing examples of how this can be done and offers insights that aim to improve working life Although there is a substantial body of research supporting a causal relationship between working conditions and employee stress and well-being information on how to develop effective strategies to reduce or eliminate psychosocial risks in the workplace is much more scarce, ambiguous and inconclusive Indeed researchers in this field have so far attempted to evaluate the effectiveness of

organizational interventions to improve workers health and well being but little attention has been paid to the strategies and processes likely to enhance or undermine interventions The focus of this volume will help to overcome this qualitative quantitative divide This book discusses conceptual developments practical applications and methodological issues in the field As such it is suitable for students practitioners and researchers in the fields of organizational psychology and clinical psychology as well as human resources management health safety medicine occupational health risk management and public health
