Primate Communication A Multimodal Approach:

Primate Communication Katja Liebal, Bridget M. Waller, Anne M. Burrows, Katie E. Slocombe, 2013-11-28 Primates communicate with each other using a wide range of signals olfactory signals to mark territories screams to recruit help while fighting gestures to request food and facial expressions to initiate play Primate Communication brings together research on all forms of interchange and discusses what we know about primate communication via vocal gestural facial olfactory and integrated multimodal signals in relation to a number of central topics It explores the morphological neural and cognitive foundations of primate communication through discussion of cutting edge research By considering signals from multiple modalities and taking a unified multimodal approach the authors offer a uniquely holistic overview of primate communication discussing what we know what we don't know and what we may currently misunderstand about communication across these different forms It is essential reading for researchers interested in primate behaviour communication and cognition as well as students of primatology psychology anthropology and cognitive sciences

Primate Communication Katja Liebal, Bridget M. Waller, Katie E. Slocombe, Anne M. Burrows, 2014 Multimodal approach to primate communication with focus on its cognitive foundations and how this relates to theories of language evolution

The Oxford Handbook of Approaches to Language Evolution Limor Raviv, Cedric Boeckx, 2025-04-30 This handbook provides a detailed account of the many methodological tools and approaches used in the field of language evolution The field has seen a rapid growth over the last decade with a greater focus on empirical data and interdisciplinary syntheses This volume aims to make sense of these recent developments to provide a clear map of the current research landscape and to showcase some of the most important advances Each chapter highlights a particular methodology and outlines a question or set of questions that can be addressed using that methodology illustrated by a key example from the recent literature The volume is divided into three parts Part I showcases the many ways in which humans can shed light on the evolution of language when placed in specific experimental settings as well as discussing the use of clinical genetic observational and historical data Part II is devoted to simulations and models that enable the careful control of biases mechanisms and environments while Part III revolves around the idea that the study of non human animals can provide valuable insights into the evolution of human language The handbook as a whole demonstrates that multiple complimentary approaches are necessary to do justice to the complexity of language evolution

The Routledge Handbook of Philosophy of Animal Minds Kristin Andrews, Jacob Beck, 2017-07-06 While philosophers have been interested in animals since ancient times in the last few decades the subject of animal minds has emerged as a major topic in philosophy The Routledge Handbook of Philosophy of Animal Minds is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind Comprising nearly fifty chapters by a team of international contributors the Handbook is divided into eight parts Mental representation Reasoning and metacognition Consciousness Mindreading Communication Social cognition and culture Association simplicity and modeling

Ethics Within these sections central issues debates and problems are examined including whether and how animals represent and reason about the world how animal cognition differs from human cognition whether animals are conscious whether animals represent their own mental states or those of others how animals communicate the extent to which animals have cultures how to choose among competing models and explanations of animal behavior and whether animals are moral agents and or moral patients The Routledge Handbook of Philosophy of Animal Minds is essential reading for students and researchers in philosophy of mind philosophy of psychology ethics and related disciplines such as ethology biology psychology linguistics and anthropology

The Facial Displays of Leaders Carl Senior, 2018-09-05 This book provides a multifaceted analysis of how the human face drives many of our most important social behaviors People perceive the identities genders and attractiveness of others from the many different faces they see every day There has been great deal of research on the psychology neuropsychology and neuroscience of how these perceptions are formed However the facial displays of leadership with their almost ubiquitous role in our social lives remain largely unexplored Carl Senior argues that perhaps now more than ever it is crucial to understand how facial displays communicate leadership abilities This book brings together perspectives from a range of international experts across a variety of fields including social psychology organisational sciences and the study of primates with the aim to further our understanding of this fundamental social force Scholars and professionals as well as anyone interested in learning more about how the face is used to drive our perception of leadership will find this book of great interest
