Pricing The Priceless Child The Changing Social Value Of Children:

Pricing the Priceless Child Viviana A. Zelizer, 1994-08-28 This study traces the emergence of changing attitudes about the child at once economically useless and emotionally priceless from the late 1800s to the 1930s It describes how turn of the century America discovered new sentimental ways to determine a child s monetary worth Pricing the Priceless Child

Viviana A. Rotman Zelizer, 1981 Pricing the Priceless Child Viviana A. Zelizer, 1987-05-01 Dramatically illustrates how the sentimentalizing of children led to the creation of the emotionally priceless child **Children, Consumerism, and the**

Common Good Mary M. Doyle Roche, 2009-09-17 Children Consumerism and the Common Good explores the impact of consumer culture on the lives of children in the United States and globally focusing on two phenomena advertising to children and child labor Christian communities have a critical role to play in securing the well being of children and challenging the cultural trends that undermine that well being Themes in the tradition of Catholic social teaching can move us beyond the tensions between children s rights activists and those who propose a return to family values and can inform practices of resistance participation and transformation Roche argues that children are full interdependent members of the communities of which they are a part They have a claim on the fruits of our common life and are called to participate in that life according to their age and ability The principle of the common good forms the benchmark for analyzing children s participation in the market and the ways in which market logic shapes other institutions of civil society particularly educational institutions The Cristo Rey Network of schools is highlighted as an example of institutional transformation which shapes children s participation in education and the economic life of their families and communities in a spirit of solidarity

The Ethics of Everyday Life Michael Banner, 2014-10-24 The moments in Christ s human life noted in the creeds his conception birth suffering death and burial are events which would likely appear in a syllabus for a course in social anthropology for they are of special interest and concern in human life and also sites of contention and controversy where what it is to be human is discovered constructed and contested In other words these are the occasions for profound and continuing questioning regarding the meaning of human life as controversies to do with IVF abortion euthanasia and the use of bodies or body parts post mortem plainly indicate Thus the following questions arise how do the instances in Christ s life represent human life and how do these representations relate to present day cultural norms expectations and newly emerging modes of relationship themselves shaping and framing human life How does the Christian imagination of human life which dwells on and draws from the life of Christ not only articulate its own but also come into conversation with and engage other moral imaginaries of the human Michael Banner argues that consideration of these questions requires study of moral theology therefore he reconceives its nature and tasks and in particular its engagement with social anthropology Drawing from social anthropology and Christian thought and practice from many periods and influenced especially by his engagement in public policy matters including as a member of the UK s Human Tissue Authority Banner aims to develop the

outlines of an everyday ethics stretching from before the cradle to after the grave

The Global History of Childhood Reader Heidi Morrison, 2012 The Global History of Childhood Reader provides an essential collection of chapters and articles on the global history of childhood The Reader is structured thematically so as to provide both a representative sampling of the historiography as well as an overview of the key issues of the field such as childhood as a social construct commonalities and differences globally and why the twentieth century was not the century of the child for most of the world's children The Reader is divided into four parts Theories and methodologies of the history of childhood Constructions of childhood in different times and places Children's experiences in different times and places Usage of the past to articulate solutions to problems facing children today Topics covered include theories and methodologies in the global history of childhood sources for writing a global history of childhood education gender disability race class and religion the individual in history and emotions violence labour and illiteracy With introductions that contextualize each of the four parts and the articles further reading sections and questions this is the perfect guide for all students of the history of childhood

Economic Lives Viviana A. Zelizer, 2013-03-24 Revealing the human side of economic life Over the past three decades economic sociology has been revealing how culture shapes economic life even while economic facts affect social relationships This work has transformed the field into a flourishing and increasingly influential discipline No one has played a greater role in this development than Viviana Zelizer one of the world's leading sociologists Economic Lives synthesizes and extends her most important work to date demonstrating the full breadth and range of her field defining contributions in a single volume for the first time Economic Lives shows how shared cultural understandings and interpersonal relations shape everyday economic activities Far from being simple responses to narrow individual incentives and preferences economic actions emerge persist and are transformed by our relations to others Distilling three decades of research the book offers a distinctive vision of economic activity that brings out the hidden meanings and social actions behind the supposedly impersonal worlds of production consumption and asset transfer Economic Lives ranges broadly from life insurance marketing corporate ethics household budgets and migrant remittances to caring labor workplace romance baby markets and payments for sex These examples demonstrate an alternative approach to explaining how we manage economic activity as well as a different way of understanding why conventional economic theory has proved incapable of predicting or responding to recent economic crises Providing an important perspective on the recent past and possible futures of a growing field Economic Lives promises to be widely read and discussed

Law and Childhood Studies Michael Freeman, 2012-03-08 Current Legal Issues like its sister volume Current Legal Problems now available in journal format is based upon an annual colloquium held at University College London Each year leading scholars from around the world gather to discuss the relationship between law and another discipline of thought Each colloquium examines how the external discipline is conceived in legal thought and argument how the law is pictured in that discipline and analyses points of controversy in the use and abuse of extra legal arguments within

legal theory and practice Law and Childhood Studies the fourteenth volume in the Current Legal Issues series offers an insight into the state of law and childhood studies scholarship today Focussing on the inter connections between the two disciplines it addresses the key issues informing current debates **Young Children as Intercultural Mediators** Zhiyan Guo,2014-06-27 This multidisciplinary approach to cultural mediation brings together insights from anthropology sociology linguistics and intercultural communication to offer a detailed depiction of family life in immigrant Chinese communities Utilising a strongly contextualised and evidence based narrative approach to exploring the nature of child cultural mediation the author provides an insightful analysis of intercultural relationships between children and parents in immigrant families and of the informative aspects of their everyday lives Furthermore the family home setting offers the reader a glimpse of a personal territory that researchers often have great difficulty accessing This ethnographic study will be of interest to students researchers and professionals working in the areas of intercultural communication childhood studies family relations and migration studies **American Examples** Samah Choudhury,Michael J.
