Triumph Of The Image Hamid Mowlana, 2018-02-07 THE TRIUMPH OF IMAGE over reality and reason is the theme of this book New communication technologies have made possible the transportation of images and words in real time to hundreds of millions of people around the world We thought we witnessed the Gulf War as we sat mesmerized by the imagery But the studies from the many countries assembled for this book suggest that it was not the war in the Persian Gulf that we witnessed but rather imagery orchestrated to convey a sense of triumph and thus to achieve results that reality and reason could never have achieved The book offers contributions from thirty five authors in eighteen countries including short samplings from the media of several regions The authors explore the social economic and political context of media coverage in their countries the domination of one image in most of them and the struggle for alternative perspectives The authors probe the dynamics of image making and pose some challenges for the future as well as provide us with a unique glimpse of how the world outside of the United States as well as many Americans viewed the war in the Persian Gulf and how the dynamics of image making and information control operate Triumph of the Image will be useful to scholars and students in communications and mass media international relations political science cultural studies propaganda censorship and contemporary history as well as to the general public *Junior Graphic* Victoria Odoi, 2010-09
