Primary Mathematics: Teaching Theory and Practice Claire Mooney, Mary Briggs, Alice Hansen, Judith McCullouch, Mike Fletcher, 2014-06-10 The essential teaching theory and practice text for primary mathematics Covering the skills of planning monitoring and assessment and class management it relates these specifically to primary mathematics With full coverage of the theory and practice required for effective and creative mathematics teaching this text is an essential guide for all trainees working towards QTS Throughout practical guidance and features support trainees to translate this learning to the classroom embed ICT in their lessons and to understand the wider context of their teaching This 7th edition has been updated in line with the new National Curriculum

How Children Learn to Write Dorothy Latham, 2002-07-25 This book is a useful addition to any staff library What makes it different to many other similar books is that it shows teachers that speaking listening and reading create the foundations for writing Tested in schools staff said It is a very useful framework for action research based upon secure theory When deciding classroom strategies it is easy to find what you are looking for and the chapter summaries are very helpful Some of the staff development and training suggestions are very practical and we are trying them out We found the emphasis upon class novels and the class discussion that follows very important especially when linked to the excellent examples of children's writing This book may appear to some as theoretical and academic but this is why it will be valuable It does what the title says because it shows how children learn to write It starts at the beginning and saves diving into the latest trend Perhaps its best recommendation is that every school that was asked to look at it said It's good and we have ordered a copy John Lilly independent education consultant The chapter on the Taxonomy of Writing Purposes will be useful for planning and those on extending and enhancing writing will definitely be helpful in many day to day situations Nicholas Bielby Times Educational Supplement This book outlines the processes which are involved when children learn to write The author shows how certain strategies can improve children's progress in writing Dealing with the age range three to 13 the book addresses issues to do with the gender gap children with English as an additional language left handedness Dorothy Latham includes ideas for sound and easy ongoing assessment of writing The book is written in line with the requirements of the English National Curriculum and The National Literacy Strategy Framework for England but is not limited to them Topics also covered include brain development and structures the acquisition of speech language and thinking working memory secretarial skills stages in compositional development writing purposes and cross curricular applications strategies for improving self generated writing using reading to improve writing using speech and drama to improve writing and ten ways to improve children's writing This book is for serving teachers in schools wishing to study the subject in further depth and as a source book for

students Useful for school based staff INSET it provides simple activities for teachers to do and discuss **Epilepsy** Mike Johnson,Gill Parkinson,2014-06-03 This book looks at epilepsy in children How is it classified managed and treated What is the impact on the family and the child involved How does this affect progress in school and access to the curriculum There are sections on assessment and diagnosis of epilepsy epilepsy and behavior epilepsy and genetics the implications for schools the classroom and learning how access to the curriculum might be increased social aspects of epilepsy and language and communication problems associated with epilepsy Apart from sound content and clear practical guidance the reader will also find a glossary of terms a seizure description chart a risk assessment chart a list of useful addresses and an annotated bibliography This book will be useful to all teachers SENCOs Teaching Assistants Speech and Language Therapists Educational Psychologists GPs parents and carers of children with epilepsy The Children's Buyer's Guide ,2004

Motivating Your Secondary Class Maurice Galton,Susan Steward,Linda Hargreaves,Charlotte Page,Anthony Pell,2009-08-24 Why do so many pupils in Years 7 8 and 9 switch off and make very little progress in the core subjects such as English and mathematics What can teachers and schools do to improve pupils attitudes and motivation Maurice Galton and his team have collected examples from various schools of what works in re energising demotivated pupils This book presents practical advice and strategies for improving lower secondary school classrooms ranging from reducing class size to innovative induction programmes emphasising the development of core study skills and developing effective procedures to train pupils to cooperate rather than confront each other during lessons Chapters cover Making a Good Start to Secondary Education Creating a Cooperative Classroom Climate Improving Communication between Pupils and Teachers Why are some classrooms more successful How can school structures influence positive relationships The book is a much needed resource for all secondary teachers and is particularly useful for year and subject heads **Science 3-13** Rachel Sparks Linfield,Paul Warwick,2002-01-04 Which factors have been influential in developing science teaching and learning for the three to thirteen age group in the last twenty years How might these factors have an impact on the future direction of science teaching and learning for this age range into the 21st century How can teachers cope with the changes Science 3 13 explores some of the historical antecedents of the current position of science in the lives of younger children It covers the various influences both from within and outside the teaching profession that have shaped the current science curriculum Current practice is examined and on this basis speculations are made about the future position and direction of this important subject The contributors each cover a particular aspect of science for the 3 13 age range but common themes emerge such as the influence of government intentions particularly through the development of the National Curriculum The role of research groups and the impact of ICT on the teaching profession as to what is important to teach and how science and science teaching should be viewed within society are shown to be important factors in the mix that contributes to change This book forms part of a series of key texts which focus on a range of topics related to primary education and schooling Each book in

the Primary Directions Series will review the past analyse current issues suggest coping strategies for practitioners and speculate on the future

English 3-11 David G. Waugh, Wendy Jolliffe, 2008 In line with the National Primary Strategy this core introductory textbook provides comprehensive up to date and most importantly creative guidance on teaching English in the early years and primary classroom Covering all of the key curriculum areas in manageable and accessible chapters the book aims to motivate and support teachers to achieve enjoyment progression breadth and balance in their teaching of effective and creative English Key topics covered include assessment for learning co operative learning popular culture and multi media By combining both subject knowledge with effective pedagogical approaches to teaching English this book is an essential one stop resource for all busy teachers

The Times Index, 2006 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement

Special Educational Needs in the Primary School Jean Gross, 2002 Reviews of the first two editions extraordinarily rich in ideas an essential buy TES an excellent clearly written work which is full of practical advice and presented in an easily readable manner This book is a highly recommended read Do buy it and see Support for Learning has proved especially influential at practitioner level never failing to offer a balanced assessment British Journal of Special Education I have a comprehensive library of books on special educational needs but I use this one more than any other because I find it readable practical and accessible It is a useful and informative book both to read cover to cover and to dip into Although it is based on sound theoretical knowledge it is clear that Jean Gross is writing from her own experience as a teacher and SEN practitioner TES Recent legislation and cutbacks to central support services mean that the responsibility for meeting special educational needs is resting ever more squarely on the shoulders of ordinary classroom teachers Yet few feel wholly confident in their ability to adapt work within the national curriculum to meet the whole range of needs or coordinate successful individual education plans for children who for whatever reason are not learning as well as they might This book will increase that confidence Aimed at busy class teachers special needs coordinators heads and teachers in training it shows how the teacher can build differentiation into planning lessons and schemes of work It describes workable strategies for managing the most common behaviour difficulties and meeting special needs in language literacy and mathematics At a whole school level it offers practical guidance on reviewing special needs policies assessment record keeping and the management of roles and resources The focus is on the way in which schools can do a good job in meeting special needs themselves within the everyday constraints of time money and energy and in so doing provide genuinely inclusive opportunities for all children This edition has been comprehensively updated and rewritten to cover the revised SEN Code of Practice and related legislation new directions in inclusion and all the major curriculum initiatives now in place in primary schools
