

Public Health And Aging Maximizing Function And Well Being Second Edition

Steven M. Albert

Public Health And Aging Maximizing Function And Well Being Second Edition:

Public Health and Aging Steven M. Albert, Steven Albert, Vicki A. Freedman, 2009-12-07 Named a 2013 Doody's Core Title

The new edition has the balance of breadth and depth and should appeal to practitioners academics and students alike The second edition of *Public Health and Aging* is a must read book in the developing field of public health and aging American Public Health Association This book provides an understanding of the physical mental and social functioning domains that affect older persons and how these affect quality of life This is a valuable addition to the growing field of public health and aging Doody's This book promotes the development and maintenance of optimal physical mental and social functioning irrespective of acquired diseases and with due recognition of the senescent changes that accompany late life Updated revised and significantly expanded this second edition contains new chapters that examine chronic disease long term care and ethical issues in public health and aging The book also serves as a resource to health professionals and students delineating what measures health care professionals can take to help elderly populations not only maintain but optimise their health The Lamp The health care industry has continued its efforts to promote health and prevent disease among elderly populations In this book however the authors argue that simple health promotion and disease prevention are not enough to address the many challenges of aging whether it entails being physically frail living with dementia or approaching death Instead the unique focus of this groundbreaking text centers on maximizing function and well being for the elderly This book promotes the development and maintenance of optimal physical mental and social functioning irrespective of acquired disease and with due recognition of the senescent changes that accompany late life Updated revised and significantly expanded this second edition contains new chapters that examine chronic disease long term care and ethical issues in public health and aging The book also serves as an excellent textbook for both graduate and undergraduate curriculums

Key Features Provides updated statistics and trends related to physical cognitive and affective functioning for older adults Covers key topics such as physical functioning and disability cognitive disability affective and social functioning quality of life and mortality Discusses the national efforts to make communities more elder friendly Includes important information on evidence based depression management programs Covers the core fields of public health epidemiology population studies health systems and policy and health behaviors

Public Health and Aging Steven Mark Albert, Vicki A. Freedman, PhD, 2010 Print CourseSmart

Public Health and Aging Steven Mark Albert, 2004

Public Health and Aging Steven M. Albert, 2014-05-14 2 A Public Health Framework for Thinking about Aging Aging and Senescence Biomarkers of Aging Phenotypes of Frailty and Successful Aging Aging and Disability Reassessment of the WHO Model Aging and Social Age True or False When Does Old Age Begin Summary 3 Public Health and the Demography of Aging Epidemiologic Transition I Declining Death Rates across the Life Span Epidemiologic Transition II Increasing Life Expectancy Epidemiologic Transition III Population Aging Aging and Risk of Death

Improving Oral Health for the Elderly Ira B. Lamster, Mary E. Northridge, 2008-01-11 This excellent new work confronts two important oral health policy concerns in the United States the disparities in the oral disease burden and the inability of certain segments of the population to access oral health care The book examines in depth this crucial yet frequently overlooked indicator of seniors quality of life It provides an invaluable set of recommendations to the clinical research and administrative communities that will serve the elderly population *Methods for Community Public Health Research* Steven M. Albert, 2014-03-11 This book presents a new approach to conducting evaluating and presenting community and public health research This is a valuable book for learning alternative ways of conducting and disseminating research Doody's Medical Reviews The Burke Albert text is a must have for all community researchers in public health It contains innovative community engaged research methods that are described in an easily understandable manner Challenging the notion of the quantitative qualitative dichotomy the contributors include integrated research methods including spatial analysis concept mapping network approaches system dynamics visual voice and news media analysis This is the first text to advance beyond traditional research methods for promoting community health by presenting a new paradigm that integrates qualitative and quantitative research methods Written for graduate students of public health and practicing researchers the book highlights new technologies and methodologies that are particularly suited to addressing complex health issues translating research into action and engaging the community and relevant stakeholders Eschewing the rigid distinction between qualitative and quantitative methods this new paradigm facilitates a more fluid use of integrated methods and interdisciplinary expertise With a focus on inferring meaning the book stresses the conjoint effects of place time voice organization and scale on health outcomes Use of these new research methods will provide greater insight into how and why contextual and community factors impact health and aid in developing more effective intervention programs The text focuses on new methods for inferring meaning from both the quantitative information that characterizes communities and the words community members use to describe their lives It pays particular attention to data collection and analysis and clearly demonstrates the intricacies of using spatial systems and modeling analysis for community health The first section on inferring meaning from numbers includes spatial analysis agent based models community network analysis and realist reviews The second section about inferring meaning from words addresses system dynamics concept mapping visual voices and media analysis Chapters describe step by step how to apply new methodologies to pressing health issues and provide Web links to interactive mapping and videos of agent based models Additionally the authors provide examples from their research to support methodological points Key features Introduces a new paradigm for community public health research that integrates qualitative and quantitative methods Provides in depth guidance about applying these new methodologies to pressing community health issues Details applications of new methods such as agent based simulations visual voice methods geospatial analysis and concept mapping Bridges the disciplines of community health and epidemiology Written for and by

multidisciplinary public health scholars **Health Promotion and Aging** David Haber, 2003 Focusing on research findings and practical applications the author in this new edition continues to stress the importance of collaboration and communication between health professionals and their clients The book is based on the premise that health professionals should be health educators *Annual Review of Gerontology and Geriatrics, Volume 31, 2011* Peggye Dilworth-Anderson, PhD, Mary Palmer, PhD, Mary Palmer, 2011-11 Designated a Doody's Core Title span This volume contributes useful knowledge not only to the field of aging studies but to multiple disciplines and public policy Anyone interested in aging studies or health care would find this volume useful and enlightening Anthropology and Aging Quarterly This unique volume with its person and context centered focus is the only book to emphasize the need to incorporate social cultural and demographics into transitional care protocol for elderly patients It encompasses the larger context of life experience in order to provide optimal pathways through transitions of care for elderly patients and has broad implications for shaping policy and future research A consideration of contextual factors for both patients and caregivers is woven throughout the book Chapters focus on physical and complex health problems shaping transitions of care legal ethical and decision making issues including informed consent and end of life the impact of the current fragmented healthcare system on transitions of care educating the workforce in transitions of care and planning for future pathways of transition that will accommodate the rapidly growing elderly population The volume will be of interest to researchers practitioners educators policy makers students elderly patients and their caregivers Key Features Describes a person and context centered focus emphasizing social demographics and geographic location in understanding transitions of care among older adults Based on the most current research on critical issues in transitional care for the elderly Written by a multidisciplinary cast of highly respected authors Includes case studies and discussion of how specific conditions affect transitions of care in different ways Addresses the physical and emotional effects of transitions on patients and caregivers *Changing Aging, Changing Family Therapy* Paul R. Peluso, Richard E. Watts, Mindy Parsons, 2013 Sixty is the new forty Changing Aging Changing Family Therapy gives family therapists a roadmap for adapting to the new realities of aging **Handbook of Aging and the Social Sciences** Kenneth Ferraro, Deborah Carr, 2021-01-09 Handbook of Aging and the Social Sciences Ninth Edition provides a comprehensive synthesis of the latest research findings in the science of aging The complexities of population dynamics cohort succession and policy changes modify the world and its inhabitants in ways that must be vigilantly monitored Completely revised this edition not only includes the foundational classic themes of aging research but also a rich array of emerging topics and perspectives that advance the field in exciting ways New topics include families immigration social factors and cognition caregiving neighborhoods and built environments natural disasters religion and health and sexual behavior among others This book will serve as a useful resource and an inspiration to those searching for ways to contribute to the aging enterprise Includes aging topics at both the micro and macro level Addresses the intersection of individual and aggregate factors

Covers a spectrum of disciplines including demography economics epidemiology gerontology political science psychology social work sociology and statistics Brings together the work of almost fifty leading scholars to provide a deeper understanding of aging
