International Symposium on Design Review (Routledge Revivals) Wolfgang F. E. Preiser, Brenda Case Scheer, 2017-08-03 First published in 1992 this book collects together the papers presented at the International Symposium on Design Review which was held to address the growing tendency of local governments to institute programs of aesthetic control The editor argues that the widespread adoption of design review processes in the years preceding the conference necessitated thoroughgoing professional criticism and a number of areas of debate are identified and addressed in the subsequent papers Are the difficulties experienced by planners community activists and architects with the process due to its relative youth or inherent flaws in the entire concept How should mechanical problems like time and expense the ease with which the process can be manipulated and general inefficiencies in the system be resolved More intricate problems are also addressed such as who has the power to judge the aesthetic quality of a building whether design review infringes on the rights of the individual especially under the First Amendment whether the design review process is fair and the difficulty for the reviewer of deciding what is right and what is wrong having taken into account factors that can be highly subjective or contradict more practical concerns *Professional Practice in Facility Programming (Routledge Revivals)* Wolfgang

Preiser, 2015-06-11 This compelling resource which was first published in 1993 was the first book on facility programming to design parameters and specifications over a broad range of project types The book's practical how to approach is exceedingly beneficial to professionals and students involved with a wide variety of building types from corporate facilities to parks day care centres health centres and correctional facilities It also covers the fine points of working with clients The contributors provide real world case studies endowing the reader with the tools necessary to reap a deeper understanding and a more critical assessment of the major programming approaches today Professional Practice in Facility Programming is a uniquely current self contained resource that will prove invaluable to a wide cross section of practitioners and students [Directions in Person-Environment Research and Practice \(Routledge Revivals\)](#) Jack Nasar, Wolfgang F.
