International Accounting Standards - English

Navneet Singh, International Accounting Standards IAS are a set of standards developed by the International Accounting Standards Board IASB to provide a common global framework for financial reporting These standards are designed to ensure consistency transparency and comparability in financial reporting across different countries and industries IAS cover various aspects of financial reporting including the presentation of financial statements recognition and measurement of assets liabilities income and expenses as well as disclosure requirements They are used by companies listed on stock exchanges worldwide and are particularly important for multinational corporations operating in multiple jurisdictions The goal of harmonizing accounting standards globally is to facilitate cross border investments enhance transparency and accountability and improve the quality and reliability of financial information for investors creditors and other stakeholders IAS cover various aspects of financial reporting including Presentation of Financial Statements IAS 1 This standard outlines the overall structure and content of financial statements including the requirements for balance sheets income statements cash flow statements and statements of changes in equity Recognition and Measurement of Assets Liabilities Income and Expenses Several IAS address the recognition measurement and presentation of specific types of assets liabilities income and expenses For example IAS 16 covers property plant and equipment while IAS 38 deals with intangible assets Disclosure Requirements IAS include requirements for disclosing certain information in financial statements to provide users with a better understanding of an entity's financial position performance and cash flows Disclosure requirements cover areas such as accounting policies significant accounting estimates related party transactions and contingencies Consolidated Financial Statements IAS 27 and IAS 28 These standards provide guidance on the preparation of consolidated financial statements when an entity controls one or more other entities or has significant influence over them Financial Instruments IAS 32 IAS 39 and IFRS 9 These standards address the recognition measurement and presentation of various types of financial instruments including financial assets financial liabilities and derivatives The adoption of International Accounting Standards particularly International Financial Reporting Standards IFRS has become increasingly widespread globally Many countries require or

permit the use of IAS IFRS for financial reporting by publicly traded companies while others use them as a basis for developing their national accounting standards Overall the aim of International Accounting Standards is to enhance the quality comparability and transparency of financial reporting thereby facilitating investment decisions reducing information asymmetry and promoting economic growth and stability on a global scale

Financial Accounting - Class 11 - English

Navneet Singh, Accounting is a vital aspect of business that involves recording summarizing analysing and communicating financial information It provides a systematic way to track the financial activities of an organization enabling stakeholders to make informed decisions Here s an introduction to the fundamental concepts and principles of accounting Purpose of Accounting The primary purpose of accounting is to provide relevant financial information about a business entity to internal and external users Internal users include management and employees who use this information for decision making planning and controlling operations External users include investors creditors government agencies and the public who rely on financial statements to evaluate the financial health and performance of the business Key Financial Statements Balance Sheet It provides a snapshot of the company s financial position at a specific point in time showing its assets liabilities and equity Income Statement Also known as the profit and loss statement it summarizes the revenues expenses and net income or loss of a company over a specified period Statement of Cash Flows This statement reports the cash inflows and outflows from operating investing and financing activities providing insights into how cash is generated and used by the business Accounting Principles GAAP Generally Accepted Accounting Principles These are a set of standard accounting principles standards and procedures that companies use to compile their financial statements in the United States It ensures consistency comparability and transparency in financial reporting IFRS International Financial Reporting Standards These are accounting standards issued by the International Accounting Standards Board IASB used by companies in many countries outside the United States IFRS aims to harmonize accounting practices globally Double Entry Accounting This is a fundamental accounting principle that states that for every transaction there are at least two accounts involved with one account debited and another credited This ensures that the accounting equation Assets Liabilities Equity remains balanced Types of Accounts Assets Economic resources owned or controlled by the company such as cash inventory property and equipment Liabilities Obligations owed by the company to external parties such as loans accounts payable and bonds payable Equity Represents the residual interest in the assets of the company after deducting liabilities It includes contributed capital from owners and retained earnings Revenues Income generated from the sale of goods or services Expenses Costs incurred in the process of generating revenue Accounting Cycle This is the process that accountants follow to record analyse and report financial transactions of a business It typically includes steps such as identifying transactions journalizing posting to ledgers preparing trial balances adjusting entries preparing financial statements and closing entries Auditing This is the examination of financial statements and accounting records by an independent auditor to ensure their accuracy and

compliance with accounting standards and regulations Understanding these basic principles and concepts provides a solid foundation for anyone interested in learning more about accounting and its role in business operations and decision making
