Rightward Bound Making America Conservative In The 1970s:

Rightward Bound Bruce J. Schulman, Julian E. Zelizer, 2008-03-15 Often considered a lost decade a pause between the liberal Sixties and Reagan s Eighties the 1970s were indeed a watershed era when the forces of a conservative counter revolution cohered A critical decade in American history *Rightward Bound* illuminates the seeds of both the successes and the failures of the conservative revolution *Judicial Review and American Conservatism* Robert Daniel Rubin, 2017-03-20 The Christian Right of the 1980s forged its political identity largely in response to what it perceived as liberal judicial activism Robert Daniel Rubin tells this story as it played out in Mobile Alabama There a community conflict pitted a group of conservative evangelicals a sympathetic federal judge and a handful of conservative intellectuals against a religious agnostic opposed to prayer in schools and a school system accused of promoting a religion called secular humanism The twists in the Mobile conflict speak to the changes and continuities that marked the relationship of 1980s religious conservatism to democracy the courts and the Constitution By alternately focusing its gaze on the local conflict and related events in Washington DC this book weaves a captivating narrative Historians political scientists and constitutional lawyers will find in Rubin s study a challenging new perspective on the history of the Christian Right in the United States *Tussen liberalisme en conservatisme* Franciscus Jacobus Cornelis Maria van Nijnatten, Frans van Nijnatten, 2012 Het stereotiepe beeld van Jimmy Carter als non politicus een idealist die boven de politiek stond en daar niets mee te maken wilde hebben is onjuist Dat blijkt uit Carters campagnearchieven van 1962 1980 die Frans van Nijnatten onderzocht in zijn proefschrift *Tussen liberalisme en conservatisme* De verkiezingscampagnes van Jimmy Carter 1962 1980 Van Nijnatten maakte gebruik van Carters pr presidenti le campagnearchief dat niet eerder in de literatuur is beschreven De archieven werpen ook meer licht op de oorzaken van de overwinning van deze zuidelijke democraat bij de Amerikaanse presidentsverkiezingen van 1976 Focus op Iowa Uiteraard profiteerde Carter van het afgenomen vertrouwen van de Amerikanen in hun regering na de Vietnamoorlog en het Watergateschandaal Maar de archieven tonen ook aan dat Carter geleidelijk een professioneel campagnevoerder werd en dat hij een onuitwisbare stempel drukte op de ontwikkeling van de candidate centered campaign in de Verenigde Staten Zo be nvloedde Carter in 1976 alle toekomstige presidentskandidaten met zijn focus op de caucus van Iowa Southern Strategy Daarnaast gebruikte Carter een weldoordachte Southern Strategy en hield hij zich afzijdig van het ideologische debat Als centrupoliticus bewoog Carter zich steeds tussen liberalisme en conservatisme en noemde hij zichzelf een populist Zijn herverkiezingscampagne van 1980 verloor Carter mede doordat bepaalde tactische elementen die hij vanaf 1962 consequent in al zijn campagnes had toegepast niet meer werkten zo stelt Van Nijnatten *The Legacy of Second-Wave Feminism in American Politics* Angie Maxwell, Todd Shields, 2017-12-05 This book chronicles the influence of second wave feminism on everything from electoral politics to LGBTQ rights The original descriptions of second wave feminism focused on elite white voices obscuring the accomplishments of many activists as third wave feminists rightly

criticized Those limited narratives also prematurely marked the end of the movement imposing an imaginary timeline on what is a continuous struggle for women's rights Within the chapters of this volume scholars provide a more complex description of second wave feminism in which the sustained efforts of women from many races classes sexual orientations and religious traditions in the fight for equality have had a long term impact on American politics These authors argue that even the Second Wave metaphor is incomplete and should be replaced by a broader more inclusive metaphor that accurately depicts the overlapping and extended battle waged by women activists With the gift of hindsight and the awareness of the limitations of and backlash to this Second Wave the time is right to reflect on the feminist cause in America and to chart its path forward

The Global 1970s Duco Hellema, 2018-09-03 No other decade evokes such contradictory images as the 1970s reform and emancipation on the one hand crisis and malaise on the other In *The Global 1970s Radicalism Reform and Crisis* Duco Hellema portrays the 1970s as a period of global transition Across the world the early and mid 1970s were still years of political mobilization with everything seemingly an object of public controversy and conflict including economic development education and family matters Social movements called for the reduction of social inequalities for participation and the emancipation of various groups at the same time as the rise of ambitious and reform oriented governments Ten years later a different world was emerging with the call for state controlled social and economic changes in decline and new economic policies centred on liberation and deregulation taking their place This book examines a range of explanations for this radical transformation highlighting how economic problems such as the oil crisis political battles and dramatic confrontations resulted in a free market oriented conservatism by the end of the period Divided into nine broadly chronological chapters and taking a global approach that allows the reader to see the familiar themes of the decade examined on an international scale *The Global 1970s* is essential reading for all students and scholars of twentieth century global history

The Routledge History of Twentieth-Century United States Jerald Podair, Darren Dochuk, 2018-05-02 *The Routledge History of the Twentieth Century United States* is a comprehensive introduction to the most important trends and developments in the study of modern United States history Driven by interdisciplinary scholarship the thirty four original chapters underscore the vast range of identities perspectives and tensions that contributed to the growth and contested meanings of the United States in the twentieth century The chronological and topical breadth of the collection highlights critical political and economic developments of the century while also drawing attention to relatively recent areas of research including borderlands technology and disability studies Dynamic and flexible in its possible applications *The Routledge History of the Twentieth Century United States* offers an exciting new resource for the study of modern American history

J. Mulloy,2020-02-29 The rise of the alt right alongside Donald Trump s candidacy may be seem unprecedented events in the history of the United States but D J Mulloy shows us that the radical right has been a long and active part of American politics during the twentieth century From the German American Bund to the modern militia movement D J Mulloy provides a guide for anyone interested in examining the roots of the radical right in the U S in all its many varied forms going back to the days of the Great Depression the New Deal and the extraordinary political achievements of Franklin D Roosevelt *Enemies of the State* offers an informative and highly readable introduction to some of the key developments and events of recent American history including the fear of the Communist subversion of American society in the aftermath of the Second World War the rise of the civil rights movement and the white backlash this elicited the apparent decline of liberalism and the ascendancy of conservatism during the economic malaise of the 1970s Ronald Reagan s triumphant presidential victory in 1980 and the Great Recession of 2007 08 and subsequent election of President Obama *American Politics in the Postwar Sunbelt* Sean P. Cunningham,2014-06-30 This book analyzes the political culture of the American Sunbelt since the end of World War II It highlights and explains the Sunbelt s

emergence during the second half of the twentieth century as the undisputed geographic epicenter for conservative Republican power in the United States. However, the book also investigates the ongoing nature of political contestation within the postwar Sunbelt, often highlighting the underappreciated persistence of liberal and progressive influences across the region. Sean P. Cunningham argues that the conservative Republican ascendancy that so many have identified as almost synonymous with the rise of the postwar American Sunbelt was hardly an easy, unobstructed victory march. Rather, it was consistently challenged and never foreordained. The history of American politics in the postwar Sunbelt resembles a rollercoaster of partisan and ideological adaptation and transformation.
