

The Daimones Trilogy

The background of the entire cover is a deep blue space filled with numerous small, distant stars. In the center, the Earth is visible as a curved horizon with a thin blue atmosphere. Above the Earth, a brilliant, fiery phoenix is depicted in the process of rising. Its body is a bright, glowing yellow and orange, with long, flowing, flame-like wings and tail feathers that extend upwards and outwards, creating a sense of powerful ascent and rebirth. The overall composition is dramatic and visually striking.

Rise Phoenix Daimones Trilogy:

The Rise of the Phoenix Massimo Marino, 2016-06-01 War is inevitable and the human race sets out to finally deliver retribution. An alien colonization has altered the destiny of the human race forever. After wiping out billions of people, the race known as the Moirai created a new transgenic species of humans called the Selected, giving them both the gift and burden of longevity and memories of human history on another world. The aliens charged the Selected with the responsibility of caring for the spared ones—unaltered humans who survived the global catastrophe. That includes Dan Amenta's daughter Hope, the only spared one who remains. Together, Dan and Hope have witnessed Earth transform into a different world where a powerful new neurological drug sparks the rapid evolution of the Selected, but Hope is nearing death. Once she's gone, obligations die with her, and the path is clear for a chain of events destined to rip apart the foundations of the galaxy. **The**

Rise of the Phoenix Massimo Marino, Susan Uttendorfsky, 2014-05-16 In a dark future, a first contact and an alien colonization changes forever the destiny of the race of man. Aliens have regenerated a new transgenic species of humans called the Selected. The first contact with the aliens led to the apocalypse. *Daimones Trilogy Vol 1* and then put the seeds for a galactic upheaval: space wars against aliens and galactic empires struggle. The last humans, the spared ones, have all died, but Hope, the second of Dan Amenta's human daughters, though she's living her last days too. Dan has seen Earth become a different world as the new civilization rises. A new neurological drug, Fusion, is heavily produced on Eridu and has created the path for a rapid evolution of the new humans, richness and good fortune. The past events of *Daimones Trilogy Vol 2* revealed the crucial role the humans have in the galaxy organization and made them aware of their strength. Once Hope leaves this life, a moral obligation suddenly is no more. Things can change, and they must. A new order and a new course will put in place the events the Moirai have sewn and destined to rip apart the foundations of the galaxy. Even with the best of intentions, cruelty is just around the corner.
